

WILL MODIFY ANTI-TRUST BILLS

Several Bills May Be Shelved and Anti-Trust Program Curtailed

CONGRESSMAN ANXIOUS TO INSPECT CAMPAIGN FENCES

Bartlett-Bacon Amendment Relating to Close Shops May Be Changed

WASHINGTON, April 6.—Drastically toned down, the revised drafts of the administration's anti-trust bills will be submitted to congress this week, according to an announcement made today. The law-makers handling them have received explicit instructions. The opinion is gaining ground, however, that several bills may be shelved for the season and the anti-trust program curtailed or postponed in the interest of an early adjournment to permit congressmen to return to their constituencies to inspect campaign fences.

Three anti-trust bills, it is reported, will probably be compressed into one. Whether the labor union and farmers' organization exemption clause will be permitted to stand will be decided in a few days, it is stated.

Amendment to Be Modified

It is expected that the Bartlett-Bacon amendment, authorizing labor unions to make closed shop agreements with employers, will be modified by limiting the unions' exemption from the operation of anti-trust legislation to permission for organizations to exist without legalizing closed shop agreements.

FAMED CHURCH BOMB WRECKED

LONDON, April 6.—The famous Church of St. Martin in the Fields on the northeast corner of Trafalgar Square, near the National Gallery, was the scene of a bomb outrage by suffragettes after the services last evening.

The evening service at the church ended at 8:30 o'clock. The reverend then made his customary rounds and everything appeared to be normal. He locked the church at 9:30 and left. About an hour afterward the neighborhood was startled by an explosion. An investigation by the police and firemen who were summoned, showed that a bench below the stained-glass windows had been partly shattered.

A in canister, identical with the one found in the Church of St. John the Evangelist, was discovered by the police. The explosive used in the bomb was gunpowder. A candle which ignited the bomb was also found.

SUPREME COURT REVERSES CONVICTION IMPORTANT CASES

WASHINGTON, April 6.—The supreme court today reversed the conviction of Robert Russell of the Economic Gas Company of the city ordered by the city ordinance, charged with violating the city ordinance forbidding excavating in the street without a municipal permit. It was held that the gas company is entitled to extend its mains as "fast as may be necessary" without express permission.

MOB MAKES ATTACK ON PASTOR IN DENVER

DENVER, April 6.—The Rev. Otis L. Spurgeon of Des Moines, Ia., a Baptist minister, was dragged from his room in the Pierce Hotel here last night by a mob of 200 men and women while others held three policemen back. Spurgeon was whirled away in a high-power automobile. The entire police department is searching for the big black touring car in which he was kidnapped.

The kidnapping is said to have resulted from an attack made by the minister upon the Catholic faith at the Pillar of Fire hall last night. The preacher was set upon by 100 at that time, but the police, having expected trouble, quelled the disturbance and took Spurgeon home in an automobile.

Fifty-four Hours Buried in Mud, Child Survives It

SAN DIEGO, April 6.—After being up to his neck in a mud flat at National City for fifty-four hours, Joe, the 2-year-old child of Antonio Lopez, was rescued. Although for two days residents of National City searched for him and many probably walked to within a few rods of where he was embedded in the mud, he was not found until a boy heard a cry and going to what appeared to be a stone covered with dry seaweed found the lad.

Although exposed to the hot rays of the sun and the cold breezes at night and without food or water the child survived the ordeal and the doctor states he will be all right in a few days. It was necessary to shave off his curls in order to get off the mud matted in them.

Bulletins of News

Hot from the wire up to 3:30 p. m.

THE WEATHER

Fair tonight and Tuesday; light fog tonight; northwesterly winds.

Convicts Killed at Folsom Buried Today

SACRAMENTO, April 6.—The four convicts who were killed at Folsom Penitentiary late Saturday in a prison break were buried today. Percy Barnes, the fifth man that was shot, will recover.

Three Injured in Explosion on Destroyer

PORTSMOUTH, Va., April 6.—Three were injured in an explosion aboard the torpedo boat destroyer Baywin, northbound. Fifteen miles south of Diamond Shoals lightship. The vessel is reported considerably damaged, although in no danger of sinking.

Became Bride for Hundred Thousand Dollars

PENSACOLA, Fla., April 6.—Major Charles B. Lewis, seventy-five, Jacksonville, Ill., millionaire, recently announced to a number of young women here that he would endow with \$100,000 any blonde young woman who would marry him, and leave her all his property by will. Today he was married to Miss Mabel Ehnart, eighteen, of Goshen, Ind., who is visiting friends here.

ROCKEFELLER, JR. TESTIFIED TODAY

Millionaire Told Little in Case of Colorado Coal Fields Investigation

WASHINGTON, April 6.—John D. Rockefeller, Jr., testified before the congressional committee today in investigation of the conditions of the Colorado coal fields. He told little, admitting that he was never close enough to the details of the main management to become familiar with them. He said his father owns forty per cent of the Colorado Fuel & Iron Company's stock, and that he holds merely stock enough to qualify as a director. After the report, Foster elicited the admission that Rockefeller was connected with the civic welfare movement, and he demanded to know why the millionaire failed to take an active interest in the strike, when there are 10,000 men in the industry in which he is personally concerned. He replied that he believed he could do no more than is being done.

MORE PLAY ADVOCATED IN ITALIAN SCHOOLS

ROME, April 6.—The Italian minister of education, Sig. Credaro, has issued an important circular calling attention to the overpressure in secondary schools. He orders the revision of the time-table of lessons and directs that no lesson is to last more than an hour; that there shall be an interval of at least two hours between the morning and afternoon classes, and at least two half-holidays a week for some schools and one half-holiday for others. Home lessons are not to be more than two hours a day, so that the pupil may have leisure for walks, sports, amusements or light reading.

Sig. Credaro's opinion is all the more valuable because he was himself a schoolmaster, and has had personal experience of the scholastic system.

WEST AND MRS. CAMPBELL WED

LONDON, April 6.—George Cornwallis West and Mrs. Pat Campbell, well-known actress, were married today. Immediately after the court made absolute the interlocutory divorce decree in favor of the gentleman's former wife. The latter was formerly Lady Randolph Churchill.

TANGO SPECIAL WAS GREETED SATURDAY

Secretary Metzgar and Others of C. of C. Took Oranges Down to Santa Fe Depot

AD MEN GAVE SANTA ANA THREE BIG CHEERS

Angel City Publicity Men and Their Ladies Tangoed on Train to San Diego

"Three cheers and a tiger for Santa Ana!"

And they were given with a will Saturday afternoon at 2:45 when the "Tango Special" of the Los Angeles Ad Club stopped for a few minutes at the Santa Fe depot before resuming its joyous way to San Diego.

The ad boys were making their annual pilgrimage to the southern harbor city. The cheers were evoked as a direct result of the publicity men having been presented with several boxes of oranges by the wide-awake and ever-thoughtful J. C. Metzgar, secretary of the local Chamber of Commerce.

"Jim" sent out a "hurrah call" Saturday afternoon when he found out that the "Tango Special" was due to come through here. An automobile was pressed into service and loaded with the oranges and a many Chamber of Commerce men as could be crowded into the car.

About five coaches made up the special. It was true to its name, for one of the cars resounded with "the tread of dancing feet." All the ad men and their ladies who cared to do so lost themselves in the intricate and exhilarating mazes of the tango while an orchestra furnished the tripping measures. A cabaret show in another section of the train helped also to keep the members of the expedition from taking on too great a surplussage of ennui.

"They're a live bunch." That's what the ad men said of the Chamber of Commerce. Also, that's what the Chamber of Commerce men said of the ad men.

MISTAKES SON FOR A THIEF

LOS ANGELES, April 6.—Mistaking him for a chicken thief, T. J. Ostergaard, a rancher at Palms, shot and dangerously wounded his son Elmer, 24 years of age, at daylight. The youth was taken to the Santa Monica Hospital with a shotgun charge in the right thigh, and his condition is critical. The son was inspecting the coop locks when his father shot. Ostergaard was not arrested.

THOUGHT STEAMER LOST WITH CREW

Frightful Details Brought by the Survivors of Sealer Newfoundland

ST. JOHNS, N. F., April 6.—There was no trace today of the sealing steamer, Southern Cross and it is considered certain that she is lost with her crew of 17. Shipping men believe she went on the rocks of Cape Race. The search continues.

Additional details were brought by survivors of the disaster overtaking the steamer Newfoundland, who said the sufferings were frightful. Some crazed by pain gnawed their frozen hands and one lashed off his frozen fingers with a clasp knife, dying from the loss of blood. Three-fourths of the survivors are blind and many went blind and stumbled from the ice into the water.

ODD ORGANIZATION FOR ANGEL CITY

LOS ANGELES, April 6.—Made desperate by what they term a veritable plague of peddlers, early harbingers of spring, residents of the southwestern part of the city are forming the oldest organization in Los Angeles—long list of miscellaneous bodies. Under the leadership of Chris Storm, who dwells at No. 2021 Twenty-ninth place, they are banding together in a Society for the Prevention of Peddlers, and are going to ask the City Council to recognize them officially.

Overflow Attendance at the Register's Cooking School

The opening session of the Register Cooking School was a success beyond the most sanguine expectations. Elks' Hall was filled to overflowing. At least a hundred ladies stood in the aisles and lobby throughout the lecture-demonstration, and as many more went away.

The Register regrets exceedingly that a larger hall was not secured, and for future sessions we hope by rearrangement, to place about 100 additional chairs.

We were guided by experience in other towns, and this led to the conclusion that Elks' Hall would be amply large.

See page 3 for full account of today's session.

CHOICE RESERVE BANKS TO STAND

Regional Institutions Selected After Careful Investigation as to Conditions

CITIES BE SATISFIED. PRESIDENT BELIEVES

Wilson States Mexican Rebels Must Have Stable Government Before Recognized

WASHINGTON, April 6.—The president has refused to take seriously the criticisms of the selection of cities for the regional reserve banks. He said he believes they were made honestly after a thorough investigation of the actual trade, capitalization and exchange methods of the banks of the various districts. It is believed that the selections will stand. The president refused to state when the personal government reserve board will be named but it is unlikely for a fortnight, and indicated he had no hand in the selection of reserve cities. He believes the disappointed cities will be satisfied with the actual operation plan.

The president said that the report that the government plans to recognize the Mexican rebels is premature and circumstances would determine the action. The general policy will be non-recognition pending the establishment of a stable government there.

DISCUSS WHAT WOMEN SHOULD KNOW ABOUT VOTES AND ELECTIONS

NEWHOPE, April 6.—Mrs. D. Head and Mrs. Roy Head very delightfully entertained the G. A. Club at their home last Thursday afternoon. Some discussion as to what women should know in order to vote intelligently took place, and with the fancy work and embroidery the time flew all too quickly. The hostesses served nut sandwiches, fruit salad and coffee.

Those present were Mesdames W. M. Ward, Lawrence, Bell, Faber, Crum, J. E. Melvin, D. Head; Roy Head.

The next meeting will be with Mrs. J. E. Melvin.

NATIONAL HEAD OF W. C. T. U. IS DEAD

PORTLAND, Maine, April 6.—Mrs. Lillian M. Stevens, national president of the Women's Christian Temperance Union and vice-president of the World Union, died at her home this morning after an illness lasting several weeks.

VOTE ON HOME RULE EXPECTED BY MIDNIGHT

LONDON, April 6.—The vote on the second reading of the Irish Home Rule is expected in the Irish House of Commons by midnight. There are further hints of conciliation, causing many to believe that a compromise may yet be effected. John Raymond said: "There is no length to which the Nationalists will not go to remove Ulster's prejudices."

MILLIONAIRE'S WILL NOT YET FOUND

PASADENA, April 6.—If Frederick Wegman's will left a will be guarded successfully, not only its contents but its very existence, according to statements today from persons close to the lumber king's relatives. The family is unaware of any document, according to these friends, although their knowledge of his systematic methods causes the belief that a will exists in the hands of his St. Paul attorneys.

THREAT MADE TO CRUCIFY CAMPOS

Bishop Held for \$50,000 Ransom to Meet Horrible Death Good Friday

EXPULSED SPANIARDS CANNOT LEAVE TORREON YET

Villa Trying to Get Passenger Coaches for Women and Children

MEXICO CITY, April 6.—Efforts of Huerta officials to locate Bishop Campos of Chilapa, reported to be held by Japata rebels, has failed. A search was instituted when it became known that the rebels were holding the bishop for \$50,000 ransom and were threatening to crucify him on Good Friday. Rumors today say that the bishop's friends failed to raise the money and that crucifixion had already occurred.

The newspapers here continue to suppress the news of Torreón's fall. "No Importa," Says Wilson

WASHINGTON, April 6.—No information has reached Washington today regarding the reported action of Huerta in revoking the consular designation of George Carothers, who is representing the State Department with Villa. It is believed the report is true but the president has indicated that it makes little difference since Carothers is operating exclusively in Constitutional territory.

BROWNSVILLE, Tex., April 6.—Consular officials at Matamoros, opposite Brownsville, are confident that Villa plans an immediate attack on Monterrey. Orders have been received for rebel troops at Matamoros to entrain for Ramones, twenty miles north of Monterrey.

EXPULSED TORREON RESIDENTS CANNOT LEAVE THE CITY YET

JUAREZ, April 6.—The execution of Villa's order expelling 600 Spanish residents from Torreón is delayed by railroad congestion. A Torreón dispatch says that all will be deported when rolling stock is secured. Villa is trying to secure passenger coaches for women and children. It is reported that Villa issued the expulsion order without consulting Carranza, but Carranza will probably approve of it.

HUGE HARBOR PLANNED FOR NORTHERN INTERESTS

ST. PAUL, April 6.—A new great city and harbor, to cost many millions and which it is predicted will revolutionize the Pacific coast trade, will be built by the government and J. J. Hill interests at Tillamook Bay, forty miles west of Portland.

J. J. Hill has fathered the plan and has made many trips to Washington lately to further the work. It is reported that the government has promised to aid him to the extent of about \$2,000,000 for dredging the natural harbor.

John Stevens, once president of the Great Northern and former chief engineer for the government in Panama, has prepared the plans. He has been here for some time working on them.

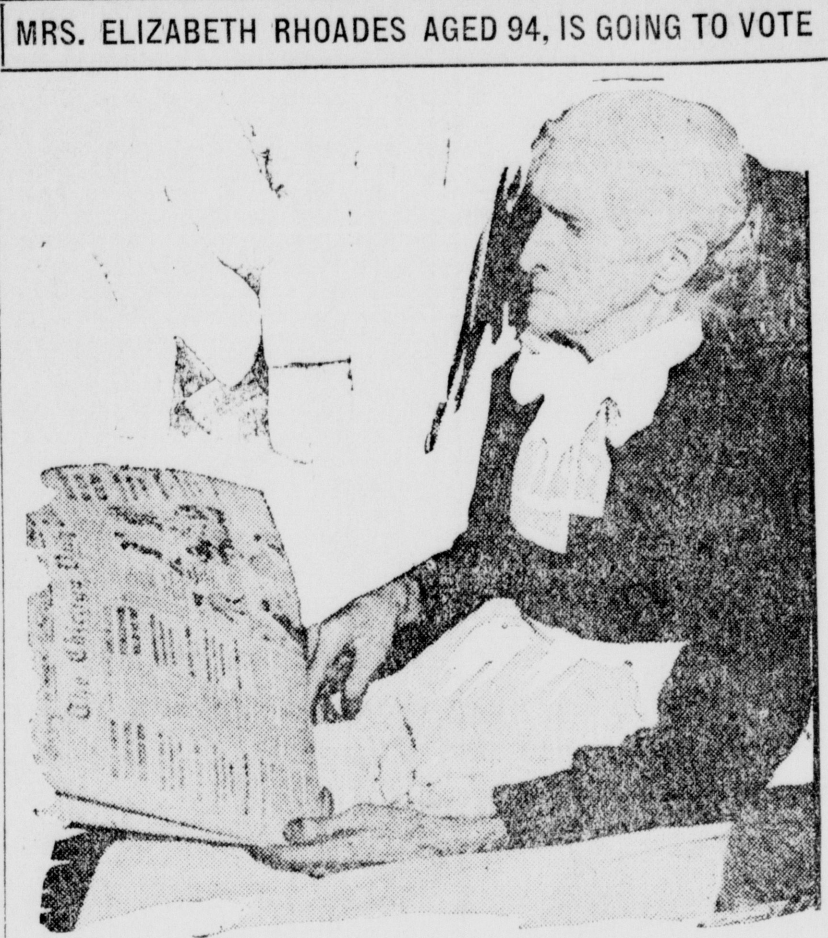

At the new harbor the Hill boats will beat the fastest trains from San Francisco to Portland, Spokane, Seattle and other points by three hours.

INQUEST HELD FOR VICTIM AND SUICIDE

STOCKTON, April 6.—An inquest over the body of Mrs. Nettie C. Harbort, wife of Dr. Ellis Harbort, and I. Katsura, her Japanese house servant, who murdered her Saturday evening and then suicided after a battle with police in the basement of the Harbort home, will be held at 4 o'clock this afternoon. The jury is expected to find either the cause of the murder unknown or that Katsura was insane. Katsura was a paroled convict.

BATH-HOUSE JOHN AND MISS DRAKE BATTLE AT POLLS

CHICAGO, April 6.—The final aldermanic battle at the polls between Bathhouse John Coughlin and Miss Marian Drake is on in the First ward today. There is a drizzling rain but a heavy vote is being polled. Both sides are working furiously. Challenges are frequent and there is much bitterness, with threats of gunplay. Complaints were made to the police of several assaults. Both sides are claiming victory.

MRS. ELIZABETH RHOADES AGED 94, IS GOING TO VOTE

Mrs. Elizabeth Rhoades, aged 94, is going to vote in the Illinois elections. She registered in Chicago at the primary, and there announced her intention of voting if she lived till the election, and she hadn't any doubt she would. Mrs. Rhoades is believed to be the oldest woman voter in Illinois at least, maybe in the United States.

"I want to vote to give Chicago a subway system," said she, when she was pressed to tell what she thought was the most important question before the public of her city.

THE U. S. NAVY TUSTIN SCHOOL WILL NOW BE "DRY"

July 1 Alcoholic Liquor to Be Prohibited on Vessel and in Navy Yards

Elwing and Tedford Present Two Elevations, One to Be Selected Tonight

WASHINGTON, April 6.—A dry navy is now to take its place in the scheme of the Wilson administration. Secretary of the Navy Daniels has signed an order which absolutely prohibits the use or introduction of alcoholic liquor on any vessel of the navy or within the confines of any navy yard or shore station. This order will be issued tomorrow to the service and will become effective on July 1, 1914.

Besides abolishing what is known as the officers' wine mess on board ship and the sale of liquor at the officers' club on shore, Mr. Daniels' order is so sweeping as practically to enforce total abstinence on naval or naval reserve personnel. It will henceforth be a violation of this order for any officer or guest on any naval vessel to have in his possession any alcoholic beverage.

Officers living on shore will be prohibited from having any liquor in their private homes, if their duties require their residence on naval reserves. Wives of officers so situated will be prohibited from serving punches or any other form of liquor at their social functions.

In no other navy in the world, so far as is known to naval officers here, is there any such rule or regulation as that just issued by Secretary Daniels. In most navies the custom is practically that of the United States navy at present. That is, there is an officer's wine mess on each vessel out of which officers purchase liquors in such quantities and at such times as they see fit without any restrictions except those required by performance of official duties.

While Secretary Bryan and Secretary Daniels with his present order have taken very decided stands on the temperance question, there apparently has been no intention on the part of the president to prevent his guests at state occasions at the White House from exercising their own judgment as to whether or not they will take anything stronger than water.

Order Topic at Washington

Secretary Daniels' order barring intoxicants on warships and in training stations continued to be the principal topic of conversation in official Washington today and opinion is equally divided apparently.

Congressman Bartholt of Missouri is among the severest critics of the order. He said: "The order is unusually harsh. It disregards the personal liberty of naval officers. They are citizens and their rights should be protected." The prohibitionists are delighted, according to Secretary Jesse Sutor of the Anti-Saloon League, who said: "The order will be most influential in promoting the cause of temperance."

\$3,500,000 TO BE SPENT ON MUNICIPAL LINES

SAN FRANCISCO, April 6.—Additional work on municipal railway lines, authorized by a recent bond issue of \$3,500,000, started today when Mayor Rolph pulled the lever sending the steam hammer through the pavement on Van Ness Avenue and Market street for the Van Ness Avenue line.

SEVEN YEARS' FIGHT FOR LOWER FARES WON IN S. DAKOTA

SIoux FALLS, S. D., April 6.—After litigation of seven years' duration the people of South Dakota have won their fight for a 2½-cent passenger fare, reducing the passenger revenues of railways that are pleading with the Interstate Commerce Commission for an advance in freight rates.

Judge Elliott of the United States Court has just signed a decree putting the reduced rate in effect, but the railroad companies are given a reasonable time in which to arrange their new schedule of passenger fares. In the meantime, passengers paying the three-cent rate can take a receipt and later recover the half-cent excess.

Not only does the decree signed by Judge Elliott grant South Dakota a 2½-cent rate, but gives the state the right to petition for a two-cent rate at any time that it has evidence to show that such a rate would give the railroads a fair compensation for the service rendered.

NINE WORKMEN KILLED; TRAPPED IN CAISSON

MEMPHIS, April 6.—Trapped in a caisson beneath the Mississippi River, while laying the foundation of the Hanrahan bridge, nine workmen, known as "sand hogs," were smothered to death. Several spectators fainted when the bodies were brought to the surface.

RECOVERED FROM FALL

WASHINGTON, D. C., April 6.—For the first time in six weeks Mrs. Wilson left the White House today. She drove through the city accompanied by Dr. Grayson, who said that she had practically recovered from her recent fall.

SIX PIECES OF

PROPERTY ARE

AUCTIONED

Today Tax Collector J. C. Lamb auctioned off six pieces of property upon which taxes went delinquent at least five years ago. Petitions had been filed allowing him to offer forty pieces, but thirty-four pieces were redeemed before the sale.

The bidding was the liveliest that has ever been brought out at any of the auctions held since Lamb went into office. George H. Clark bought lot 9, block 80, Fairview, for \$38.88, and that was the only piece of property that went for the amount of the taxes.

The east 119 feet of lot 23, block 51, San Juan-by-the-Sea, started at \$12.84 and went up to \$30.50. Hugo Wetzel of Richfield being the buyer. Wetzel also bought lot 6, block 19, Arch Beach, for \$22, the bidding starting at the tax figure, \$13.86, and lot 19, block 25, Richfield, for \$40, the bidding starting at \$14.07.

George T. Parr bought lot 23, block 3, Carlton, for \$20, bidding starting at the tax figure of \$12.90, and lot 24, block 23, Carlton, for \$15, starting at \$12.82.

DON'T BE TAKEN

IN BY THIS MAN

City Marshal Jernigan has received the following description of J. Hall Menzies, an American, who is wanted at Riverside for obtaining money under false pretenses:

"Twenty-nine or thirty years old, weight about 140 pounds, height about 5 feet 9 or 10 inches, brown hair, blue eyes, fair complexion. Wore black and white suit of gray effect, soft round hat. This man is a very smooth and attractive fellow, has a habit of pulling at his clothes as if he did not wear suspenders. He claims to represent the University Society of Fifth Avenue, New York, a musical literary concern. He takes orders and collects money, but does not deliver the goods. The university concern denounces him as a fraud. He has several victims in this city who will swear to a complaint. Any information at my expense.

"F. F. CORRINGTON,
"Chief of Police."

ALL VICTIMS WILL LIVE
ATTICA, Ind., April 6.—Physicians announced today that all of the thirty-four injured when the Wabash Continental Limited went through the Wabash River bridge here Sunday will live. Three trainmen were killed.

BAD WEATHER HALTS FLIGHTS
MONTE CARLO, April 6.—The weather being unfavorable no flights were registered in the 800-mile race from seven different points in Europe to this place. Hirth, who landed at Marseilles last night, was prevented from making the over-sea flight to this place by the bad weather. His time for the land flight is sixty-three minutes better than that of Marcel Brindjone des Moulins, who started from Madrid and finished here on Friday afternoon, so that he has a chance to win the first prize.

COULTER'S QUEER STORY.
It Was Thought He Had Discovered Hades, but He Hadn't.
At a gathering in Milwaukee a well known minister was called on to tell a story, and this is what he told:
"Did you ever hear of Coulter's hell? Of the two men lost by the great Lewis and Clark expedition of 1803 on its long journey through the northwest one was a man named Coulter. He was captured by Indians, who stripped him and set him to running the gauntlet. "Outrunning their blows, he snatched a spear from the last Indian, killed him with it and ran into the mountains naked and wounded, but at last free and armed. Wandering toward the southeast, he presently found himself in a land where the forces of nature appeared to have gone mad together. Rivers from which he sought to drink ran hot water, boiling fountains gushed hundreds of feet in the air, volcanoes of black mud vomited at him, bubbling fountains of snow white mud gushed around, with others of crimson and blue and green. A mountain of pure sulphur crystals rose on one hand, and from beside a stream rose another composed of black glass almost as clear as a window pane.
"At last, escaping from the place, he was found by some trappers, who clothed him and took him to St. Louis, where they reported him as one whose mind had been wrecked by his experiences. Wherever he told of the frightful country which he swore he had seen men roared with mirth at the yarn and made him tell and retell it till within a few years it went all over the west as an example of the effect of the horrors of being lost on the human mind. It was commonly known as 'the story of Coulter's hell,' and under that name it frequently appeared in the eastern papers in the early thirties and forties. Coulter himself finally died regarded to the last as a hopeless maniac.
"And then in 1893 some Montana trappers wandered into the region and came back with the astounding tale that Coulter had told the truth and had never been insane at all. The government immediately rushed soldiers and scientists into the country, and before long it became the Yellowstone National park. And that is the story of Coulter's hell."—Milwaukee Journal.

NERVE IN BASEBALL.
Result of a Wild Throw to Third With the Bases Full.
Charley Doolin, one of the famous catchers of the National league, tells a story to the effect that after a brief trial with the St. Paul club in 1880 Charles A. Combsky, then its manager, advised him to return to the tailoring business and stick to it.
Another yarn concerning Doolin tells how a little later on and when he was still little more than a youth and weighing in the neighborhood of 115 pounds, he wished himself upon Manager McKibben of the St. Joseph club. When Doolin reported Mac walked around him twice and then announced that he wanted a catcher and not a jockey. Injuries to regulars, however, gave the boy his chance, and he was sent in to backstop for "Big Jim" Wiggs.
In his first game Doolin wanted to prove that in addition to being a catcher he was some thrower. When he heaved to second the baseman would have needed a ladder to get the ball; to third his legs were low, and his shoots to first nearly took the sacker off his feet. After his wild throws had filled the bases in one inning he threw to third again to catch a runner off the cushion. The ball went so high the left fielder almost got to it on the fly, while "everybody came home."
When the inning was over Doolin had four errors charged against him, and he walked to the clubhouse and began to pack up his clothes. McKibben stopped him, saying his nerve in daring to throw to third to catch a man off with the bases full, caused by his previous bad throws, deserved another chance. Doolin stuck and caught almost every game that season. His next jump was to the Phillies, and his reputation was made.—Ed A. Goewey in Leslie's.

"Young Tibery says he will blow out his brains if Miss Gadders refuses him."
"He should threaten to cut his throat."
"Why so?"
"Because anybody can see he has a throat."

Register's Cooking School Opens Today

BIG CROWD AT FIRST SESSION

Much Valuable Information Given Out by Miss Peet—

Meets Many Old Friends and Makes New Ones

A large and enthusiastic body of representative Santa Ana women attended the first session of the Register's Cooking School this afternoon. Everyone was pleased and the lecture-demonstration today was successful beyond all expectations.

Miss Peet says she feels sure the school is going to be a fine one. She was delighted with the size of the audience which greeted her today and with the interest and enthusiasm manifested. "I am always enthusiastic about my work," she said, "but when a great number of women get together, all interested in one point, and eager for information and betterment along one line, it adds even to my enthusiasm." Many women were on hand early today to give Miss Peet a hearty welcome and many remained after the close of the session to thank her and assure her they would be here every day. There is every prospect of a splendidly successful cooking school and the management are congratulating themselves on having secured Miss Peet to conduct this school of housekeeping and cookery methods.

USES PLAIN TERMS

Miss Peet's lecture this afternoon on general principles of housekeeping interested all classes of women. It was a comprehensive talk covering many points of interest and containing many helpful and practical suggestions. The beauty of all Miss Peet's work is that it is eminently practical; her ideas are all workable and are given to her audience in plain and unscientific terms. The prospective bride, inexperienced in practical housekeeping methods, but deeply interested in the workings of domestic science, which Miss Peet calls Home Science, always gets much assistance from Miss Peet's lecture-demonstrations. On the other hand, the experienced housekeeper, who manages her household according to what she calls old "tried and true" methods and is inclined to look askance at domestic science and "new fangled" ideas, is soon won by Miss Peet and she too goes away with many new and helpful plans suggested by the lecturer. Such women find that, in Miss Peet's hands at least, Home Science is not theoretical but interesting and wholly practical, and after they have heard Miss Peet once, miss no opportunity of hearing her again.

MADE DIGESTIBLE DOUGHNUTS

At the close of her lecture, Miss Peet turned her attention to the kitchen background upon the stage and soon had the hall filled with savory and tempting odors. When the dough board was made ready and the frying kettle put on the gas stove, and Miss Peet announced that she was going to make digestible doughnuts, a pleased murmur ran through the audience. Many remembered Miss Peet's doughnuts from last year, others had heard about them and all were eager to taste them. When after an incredibly short time, Miss Peet's assistant began serving them to her audience, the murmur grew to applause. The doughnuts tasted as good as had been predicted, and the audience is to report on their digestible qualities tomorrow. But Miss Peet says she knows what they will say. "I have experimented a long time on these doughnuts, and I know just what they are; you can give them to the children for supper. They won't hurt even a dyspeptic, and they are not expensive, either." Miss Peet also served orange sticks, cinnamon cakes and banana compote, and all these recipes were gladly copied by the guests of the school.

EVEN BETTER PROMISED FOR TOMORROW

The program for tomorrow afternoon will be even better than today's. There will be an extra session of the cooking school Wednesday night when one of Miss Peet's most famous as well as most novel recipes will be demonstrated, that of Baked Ice-Cream. Miss Peet promises to serve this rare delicacy to her guests Wednesday evening and to show Santa Ana women how it is done. Tomorrow afternoon Miss Peet will prepare and serve:

Saratoga Chips Lemon-Cocoanut Cake
Pastry Strips Walnut Souffle

The "IDEAL" Fireless Cook Stove

Is on display at Miss Peet's Cooking School this week—All admit its superiority.

DEMONSTRATION OF
"IDEAL"
FIRELESS COOKERS.

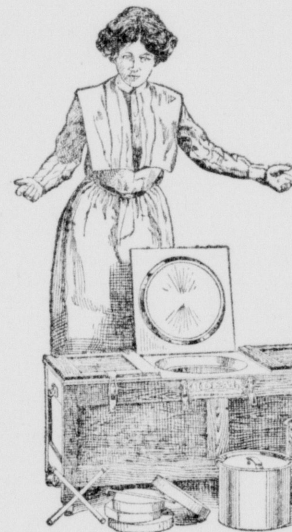

Visit the school every day and learn how many different foods may be cooked in an "Ideal." Made in one, two and three compartments. Buy one now and get a full summer's use of it.

SOME POPULAR RECIPES

GOLDEN ORANGE CAKE

One and three-fourths cupfuls sugar, one teaspoonful salt, one teaspoonful orange extract, one cupful milk, five eggs of yolks of ten eggs, four cupfuls flour, one cupful Crisco, four teaspoonfuls baking powder; orange icing.

For Cake—Cream Crisco and sugar together, add salt, eggs well beaten, orange extract, and flour and baking powder alternately with milk. Mix carefully and turn into Criscoed and floured cake tin and bake in moderate oven about one hour. This mixture may be baked in layers.

For Icing—Boil one cupful water with two cupfuls sugar until it forms a soft ball when tried in cold water, or 240 degrees F., then pour over well beaten yolks of four eggs, beat until smooth and thick, add one and one-half teaspoonfuls orange extract and spread at once on cake. Sufficient for one large cake.

Go and see Miss Florence M. Peet's Cooking School at Elks' Hall every afternoon, 2 to 4 p. m., Monday, to Friday, April 6-10, inclusive, and see the demonstration of

Electrical Appliances

loaned by The Southern California Edison Co. This is the greatest demonstration ever shown in Santa Ana. Everybody invited. No orders for electrical appliances will be taken at these demonstrations. But the same may be purchased at

CRISCO SHORTENING**

As well as all other high class goods in the grocery line.

G. A. EDGAR 114 East Fourth St.

VEGETABLE PIE

One-fourth cupful melted Crisco, six potatoes, two carrots, one parsnip; one-half head celery, one cupful peas, one teaspoonful powdered herbs, one cupful sliced beans, two onions, four tomatoes. Pepper and salt to taste. Sufficient white vegetable stock to cover.

Peel and slice tomatoes and partly boil them. Then prepare parsnip, carrots, celery and onions, and cook them for 15 minutes. Grease large fire-proof dish and place in all vegetables in layers, with herbs, Crisco, salt and pepper to taste. Pour in white stock, cover with layer of sliced potatoes and bake in moderate oven for one and a half hours. Sufficient for one large savory pie.

BANANA COMPOTE

Boil one cupful sugar and two-thirds cupful water ten minutes, add the juice and grated rind of one-half lemon, also one-fourth teaspoonful vanilla.

Allow the above mixture to cool. Pour over four bananas which have been quartered lengthwise. Allow this to chill. Sprinkle with finely chopped walnut meats. Serve with whipped cream.

PREPARING EASTER MUSIC

The weeks previous to the Easter festival are a busy time in most church choirs. In the old intonations, the observance of Easter was considered to savor of "Popery." The choirs could search through their tattered anthem books in vain for any compositions commemorating this great Christian festival.

There are few religious societies today that do not demand a more or less elaborate display of their musical powers for this occasion. Among all the devices adopted to lure the indifferent public into the sanctuary, probably none is more continuously effective, year in and year out, than good music.

It is commonly felt that in order to provide a good choir, much money must be spent. If a church demands a quartet music, satisfying the educated ears of music specialists, this is usually correct. But there are a great many churches that provide excellent chorus music at very little cost. It all depends on getting a competent leader, who has enthusiasm enough for his art to drill hopeful amateurs.

Christmas music is poetic, imaginative, romantic; Easter music is enthusiastic, triumphant, virile. It should be masculine, militant, expressing the victory of the spirit over the coarse decay of the flesh. It need not possess difficulties that will daunt the amateur choir. Trills and roulades do not always make a composition beautiful, nor do they necessarily interpret human emotion.

Many musicians are writing songs and anthems, and trying to sell them, who should have spent their time drilling little children in five-finger exercises, or in farming. This power of musical creation is a gift shared by but few. The chorister who is to draw and hold his audiences year after year, must be able to discriminate between tawdry fustian and the essential elements of original harmony and melody.

WHOLESOME REGULATION

The costly reaction that the country is undergoing from the era of stock-watering and inflation gives striking justification of the work that California's Railroad Commission is doing. An important electric line in Northern California finds itself in need of funds. In the good old days it would have financed itself by floating more bonds. Today the state commission informs the company that there must be more actual investment in the concern and that it has issued all the bonds the property should carry.

One of the most gratifying phases of this particular instance is that the stockholders agreed that the commission's position was correct and levied on themselves an assessment aggregating \$800,000.

EVEN THE "CHRONICLE!"

The San Francisco Chronicle feels compelled to approve, one after another, various pieces of Progressive legislation which in general it denounces whenever it is attempting some political purpose. The net content of law, which went into effect April 1st, is distinctly to be credited to the Johnson administration. Here is what the Chronicle says of it:

"That is a most excellent law which should be most rigorously enforced. Cheating in weights and measures has become universal. No householder in buying any food product can safely assume that he is getting what he pays for."

This is not the first time, by any means, that the bitterly hostile Chronicle has had to support Progressive measures in spite of itself.

REMARKABLE SKIN CURE IN SANTA ANA

J. B. Carter Tells of Complete Relief from Skin Disease by Use of D. D. D.

This is to certify that D. D. D. has cured me of eczema which I have had since a boy. It was so troublesome at night that it was hard work to sleep. All other remedies have failed. I can recommend it to my fellow sufferers and hope they will receive the same benefit I have. J. S. CARTER.
So confident are we that the D.D.D. Prescription will reach your case too, that if the very first full size bottle fails to do exactly as is claimed, it will not cost you a cent. Drop in and let us tell you more about this great remedy, D. D. D. Wingood's Drug Store, 310 East Fourth street.

The People's Forum

Brief communications will be published under this head, provided they be signed by the author, or the author's name be sent to the Editor as an evidence of good faith. However, the Editor shall be the sole judge as to the propriety of publishing any communications, and the Register assumes no responsibility for any views that may be expressed in this column.

"The Creation"

Editor Register: The writer having had the pleasure of attending the Photo Drama of Creation, now being presented in your city, in the College of Music, desires to call the attention of your readers, especially of Bible lovers and all other educational leaders, to the great opportunity now open. The writer was asked: "What is your opinion of this way of teaching?" In reply we said: "Our impression is that it does a great deal of good, more than sermons, especially to those who know little or God's plan. The pictures bring to the mind so forcefully God's love and care, while the lecture explains them in a simple yet impressive manner."

It is a wonderful way of presenting the truly scientific, historical and Biblical facts, and thus presenting a general outline of the Bible in such an interesting way that one does not tire of it, but rather, as one remarks, "I saw the Photo Drama of Creation three or four times in St. Louis, and I would not miss seeing it again." On every side we hear words of praise and commendation. The educational factors of your city, are advising students to avail themselves of this great privilege.

In thus calling this opportunity to the minds of ministers, Sunday school superintendents, Sunday school teachers and Y.M.C.A. leaders, also all other leaders in education, we believe we are doing a kindness, for surely no other method can show forth the wisdom, justice, love and power of Jehovah. The love which manifested itself in past ages, is still extended to mankind of this present age. To the Bible student and Christian, here will find your faith strengthened and your reverence and love for the Bible increased. You will see the harmony existing between true science and the Bible. These pictures are truly works of art, and have been collected at great expense. The young people, too, will come to know more of a loving Creator, and will desire to read His word, to know for themselves His will concerning them.

All know that children rarely refuse to look at a picture. What valuable instruction they receive from wholesome pictures! This instruction is lasting, and they, too, will be led step by step to a desire to know so loving a Creator.
Surely this is an opportunity, and let all avail themselves of it. Many say that it is the finest collection of pictures we ever saw. We recommend it to all.

OIL LAND SUITS

(From the Los Angeles Financial News.)

A. M. Stevenson of Denver is a Los Angeles visitor. Mr. Stevenson is the attorney who handled the Midwest Oil Company cases, which were heard before Federal Judge Ryan in Cheyenne, and won. The cases have been appealed by the Government. The Midwest Oil cases are identical with the California cases, except in the case of the National Pacific Oil Company.

In this connection it might be said that insofar as the California cases are concerned the Government oil land suits do not hit or hurt the larger marketing concerns, but they do strike direct at the small operator, and likewise at 40,000 stockholders in the smaller companies.

A. L. Weil of San Francisco, counsel for the General Petroleum Company, has compiled statistics which disclose the fact that there are 121 operating corporations in the Midway and Maricopa fields producing oil from unpatented lands; that these corporations have invested in their plants exclusive of lands \$29,800,000; that the oil already produced has averaged to cost \$1.65 a barrel, and that it has been sold at an average price of 38 cents a barrel. This loss is distributed among 40,000 stockholders and in the suits brought by the Government will increase this loss by 38 cents per barrel, which shows conclusively that big business is not hurt by the suits. It is the small holder, the small company, that is hurt. Commenting upon these suits the San Francisco Chronicle says:

There are large areas of public land in the upper San Joaquin Valley which are known or believed to contain mineral oil. A great deal of this has been filed on by locators and there is actual or expected litigation with the Government in respect to the title to all the unpatented claims. The locators unanimously claim that the spirit of the Government is manifested in the Attorney-General's office is utterly unjust and hateful, in that it assumes that all locators are rogues, and that whether they are or not, not one of them shall profit by any location which the Government can prevent it. The basis of this feeling is this:

Previous to September, 1909, it was the unquestionable law of the land that prospectors might acquire title to oil-bearing lands by discovery. This was under a general law enacted long ago, without thought of mineral oils, and its application was made difficult by department regulations claimed to be unreasonable, but under that law patents until recently were freely issued to discoverers. All these are now held up. The department claims that patents have not usually been applied for, and the expect justice from the department, even where good faith and substantial compliance with law is evident. The regulations are so intricate that it is easy to find technical objections to almost any location; there is no appeal from the decision of the department, they have not the money to fight the Government indefinitely, object to submit themselves without appeal to the judgments tried in the courts. Besides, such applications as have been made have remained without action, some of them for two years.

The foregoing is the position of those whose locations antedate September, 1909. At this time President Taft issued an order withdrawing all supposed oil lands from location. As that nullified an existing law its validity was disputed and located claims as if no withdrawal had been made. All agree that this class of locations may be, and in fact must be, disputed by the Government.

W. A. HUFF

The Political Watchtower

In the last fortnight there has been talk of several candidates coming forth for county officers, but a good deal of it is talk. There is no question but that the time draws near when most of those who are going to run will be running. In a couple of months the nomination petitions may be started, and as soon as they are out the line-up of the candidates will be soon settled. Then if ever comes a perfectly good chance for man or woman to run for office, and if the month's period in which nomination petitions can be circulated goes by those who hesitate will not get their names on the ballot.

Frank S. Trickey of Orange has thought the matter over and has reached a decision. Four years ago Trickey all but made the Republican nomination for county auditor, but D. Lester defeated him by less votes than there are spokes in a wagon wheel. Since then Trickey has always been considered a prospective candidate for the office. Some attempts were made recently to get him to run for some other office, but Trickey declared that if he ran for anything it would be for auditor. Trickey has pondered the situation over and over, and while he feels certain that if he ran he would be elected, he finds that the best thing he can do is to stay by his store business at Orange, which is building up nicely.

That leaves two candidates in the field for auditor, the incumbent, C. D. Lester, and William C. Jerome. If no other candidates pop up, the auditor's fight will be decided at the primaries. Should there be three in the race, it might go to the November election for a decision. And there has been some talk of a third candidate aside from the Trickey talk. For a time there was a rumor about that Parke S. Roper of Santa Ana might get into the hunt, but the rumor ran around.

It seems to be pretty well understood that C. S. Hubbard of Santa Ana is to be a seeker after the job now held by County Treasurer J. C. Joplin. Hubbard has been thinking it over, and the Watchman's wireless brings a flash that Hubbard has just about made up his mind to shy his hat in the ring.

Today, after many years service in the courthouse, George E. Peters

quits the big red stone building for one with a white front down on Fourth street. He is now assistant trust officer in the Orange County Savings & Trust Co. At noon today, Orange county received the bow or County Recorder Joseph M. Backs, who takes Peter's place on appointment by the Board of Supervisors. Miss Justine Whitney, who was chief deputy in Peter's office, also withdrew from the courthouse at noon today. She declined appointment by Backs, and has entered the race against Backs for the office. That will make two women candidates for county office, for there is also little question but that Mrs. E. B. Norman is going to be a candidate against R. F. Mitchell for county superintendent of schools.

So far J. C. Lamb has been among those who have been immune from avowed opposing candidates. He is running a lonesome race, and that is just the kind that a candidate most enjoys. There has been more or less intimation that Perry of Orange might go forth after the present tax collector's official scalp, but so far it is only remote intimation.

Justice of the Peace Cox has quite a head start in his race. He began running a long time ago, along about Nov. 6, 1910. That was the day he was elected. He has been running right along ever since, but he has not had anyone to run against. But he has someone now. There is another man out for the job, and he is W. W. Simon. Simon has been a judge back East, and he already carries the handle of judge to his name. It will be Judge Cox vs. Judge Simon. At least, that is the way the information reaches the Watchtower, and the Watchman swears he has got it pretty straight that Judge Simon has decided to be the next justice of the peace of Santa Ana township, if he can.

There is a double-barrelled office concerning which little has been said. That is the office of public administrator and coroner, now held by T. A. Winbiger. Thus far Winbiger has had no one to worry him. Not a soul has threatened to hold a political inquest on him next August.

It looks as though there was going to be a real lively mix-up in the fifth supervisory district this time. Supervisor Jasper Leck is not asleep at the

switch or at any other point along the line, and his friends say that things look good for his re-election. In the last week J. P. Greeley of East Newport has begun to stir around quite a bit. He is a candidate, for his cards are out. George Jeffrey of Myford has been an avowed candidate for some time. With Leck, Greeley and Jeffrey in the race, an interesting finish is as certain as the coming of the election.

CURIOUS BREADS.

Made in Chains in the Balkans and Laundered in China.

Bread is made in different shapes and in different ways, according to the taste of the various nationalities. Mr. L. Lodian in Forest and Stream says: "The bread of the Balkans, curiously made in the form of chains, is sold from the arms and necks of itinerant peddlers. In tent life in Balkania the detached links are often used for fun at quiffs or serve a more useful purpose in suspending temporary curtains and awnings. Then when the campers run out of provisions they literally eat their curtain rings! The Japanese bamboo bread, so named from its shape, is a somewhat similar product. It is sliced and sold in strings."

"The sun dried bread sheeting of central Asia looks much like chamois leather and is made up in pieces of bed sheet size. It is compounded from flour and raisin sirup and is highly esteemed by coffee drinkers. In the bazaars of the caliphates it is frequently seen hanging in place of awnings to shield the stalls from the sun."

"One of the strangest crackers comes from Russia. It is known as fit the month begl and, besides being much appreciated as a tea biscuit, is quite commonly used by merchants ignorant of the three R's as a makeshift abacus in counting money, a lower string of ten serving for kopecks and an upper string of the same number representing roubles. More picturesque still is its usage as an extemporizing ring for marrying poor peasants with whom the gold is lacking."

"Most singular of all, however, is the peculiar pith bread of China, which, instead of being baked, is laundered out in narrow strips with a hot iron, much in the manner that a collar receives its finishing. It is made from the central tissue of the fatia trees and is valued highly by the citizens of the 'flowery republic' as a dainty cracker to eat with their little cups of watery, unsweetened tea."

TORPOR OF THE TURK.

Shown In a Quaint Reason For Not Delivering a Message.

An interview in the New York Sun between one of its reporters and Mr. Bedros Keljik bears humorously on the Turkish situation and seems to indicate that what is needed is not increased political activity, but more attention to business. As an illustration of the everyday torpor one of the experiences of Dr. Rizk Tewfik, member of parliament for Adrianople, with a Turkish official may be cited.

Dr. Tewfik was visiting a friend at Kade Kony, across the Bosphorus. About 10 o'clock at night he heard the watchman call, "Yagin var, Galatada yagin var!" ("There is fire, there is fire in Galata!"), the usual alarm given when fire breaks out in any quarter.

It happened that Dr. Tewfik's own home was in Galata, and he rushed to the nearest telegraph office to inquire concerning the safety of his family. He received no answer to his telegram, and his fears were roused. But as no boats cross the Bosphorus at night he was obliged to wait till morning.

He got home at last to find everything safe. When he asked why his family had not answered the telegram he was told that they had not received any. So, Dr. Tewfik went to the telegraph office and demanded an explanation.

One Osman Agha, to whom Dr. Tewfik's telegram had been given for delivery, was called.

"Where is the effendi's telegram?"

Osman Agha fumbled in his pockets and drew forth the message.

"Why did you not deliver it?" demanded Dr. Tewfik angrily.

"Oh, effendi," answered the imperturbable Osman Agha, who had evidently perused the telegram to his own satisfaction, "it was needless. I knew that your house was not on fire."

Suspicious of Bankers.

In a remote farming district in which I once passed a few days I was told of a wealthy farmer whose friends, fearing he would be murdered, succeeded after an infinity of trouble in persuading him to take his money to a bank. When he interviewed the manager he asked how much the bank would charge for taking care of his cash. The manager replied that it would charge nothing, but would pay him something. "I always knew you were rascals!" he retorted, and marched off, money and all.—London Citizen.

Very Thoughtful.

"The clocks," said the bride, "are simply beautiful, and it was lovely of you to give them to us. But—wouldn't you think me inquisitive?—may I ask why you gave us a pair of them? Of course it was perfectly."

"I gave you two of them," interrupts the friend, "because I'm very fond of both of you, and if you ever get divorced you will each have something to remember me by."—Chicago Post.

Avoiding Comparison.

"What is your objection to me as a son-in-law? My character is beyond reproach."

"That's just it," said Mr. Olisport. "You don't suppose I want to go through the rest of my life having you held up to me as a shining example!"—Washington Star.

Leaving Earth.

She—My husband has just left earth. He—How's that?—Is he dead? She—No; he's just gone up in an aeroplane.—Pele Mele.

Doings In Social and Club Circles

FAREWELL TO TRAVELER

micus Club Enjoys Dinner Yesterday at Spencer Home on San Joaquin

Mr. and Mrs. Harry Spencer were hosts yesterday at a charming dinner, their guests being the members of the club, their husbands and friends. The fair was given as a farewell to Mr. Spencer, who leaves next Sunday for his old home in England to be absent two months.

Dinner was served at 6 o'clock in the dining room, which had been decorated into a bower of bloom with delicate begonias and fern. The centerpiece of the prettily-appointed table was a gorgeous cluster of pink Mammichia, the gift of the lady guests to the hostess.

After the appetizing meal had been done full justice, music from the Edison phonograph and jolly conversation were enjoyed, together with a guessing contest in which Mrs. Ida Bishop proved to have the best imagination, winning the "royal." Al Dresser proving a close second for the gentlemen, Miss Henrietta Young, having spoken of too many hot rolls, was in the lead.

Those who were invited to enjoy the hospitality of the Spencers were Messrs. and Mesdames Cood Adams, Ben Adams, Arthur Ball, Al Dresser, Fargher, Leo Goepper, Miss Nellie Young, Mrs. Ida Bishop, Miss Henrietta Young, Messrs. Miller and W. R. Dross and Mrs. Dell Kroll.

A Farewell Party

The Five-A's class of the United Presbyterian Sabbath school met on Saturday afternoon at the church for a farewell party in honor of Golda Johnson, a member of their class, who will leave for her Eastern home today. It was a total surprise to her as she went with Josie Eilers in the machine to take some things to the church.

The afternoon was spent in playing games and in taking pictures, after which refreshments were served. The decorations were calla lilies and fern.

Those present were: Golda Johnson, Josie Eilers, Lila Roy, Gladys Williams, Myrtle LePage, Ethel Morrow, Reda Grinn, Elsie Raitt, Dorothy Skiles, Lorene Patterson, and their teacher, Mrs. Torrens.

The girls all regret the departure of their faithful classmate, and the best wishes of every member of the class, as well as her many friends, go with her.

Guests at Anaheim Luncheon

Mrs. A. J. Lawton returned last evening from a pleasant week-end visit with Mrs. Henry Kuchel at Anaheim. On Saturday Mrs. Lawton was a guest at a delightful luncheon given by the Anaheim Elbell Club.

Mrs. Lawton returned from a three days' visit at Balboa Saturday morning.

Series of Bible Lessons

All those interested in the study of Bible doctrine will be pleased to hear of the coming of Miss Parker to begin a series of weekly lessons from the Book of Genesis, in the First Baptist church this evening at 7:30 o'clock. The Book of Genesis is peculiarly adapted for such a study, containing, as it does, the seed of all the doctrines of the Bible, and Miss Parker, a graduate of the Moody Bible Institute, and associated with Dr. Torrey for twelve years as private secretary, is well fitted for its teaching. It is hoped there will be a large attendance, the classes being free for all. Bibles and notebooks should be in evidence.

Married at El Centro

Ward has been received here of the marriage in El Centro of Miss Belle Mitchell, sister of Superintendent of School R. P. Mitchell, to Dr. John Smith. The bride has been at Hemet for some time for the benefit of her health. The wedding was a surprise to relatives and friends.

Seventh Grade Entertained

The seventh grade of the Intermediate school was entertained right royally Friday evening last at the home of Miss Helen Carnahan on East Walnut street.

Music and various amusing games were played and ice cream and cake were served.

ANNOUNCEMENT

CITY CLERK A WOMAN

Burbank has chosen a woman to serve as city clerk. Miss Emily Peyton succeeds J. E. Kendall. The incumbent is credited with being a first-class accountant, bookkeeper and stenographer and the Burbank Review expresses the confident opinion that the new city clerk will fill the position with credit. Why not? The job is admirably suited for a capable woman.—San Fernando Democrat.

Balboa House Party

A jolly affair of last week was the house party given at Balboa by the Philathea Class of the First Methodist church. In a large house on the ocean front, where formalities were forgotten, the class met for its regular business meeting and social. But, while the business meeting lasted only twenty minutes, the good time on this particular occasion was lengthened into days.

Rowing, bathing and launching were some of the gay, more lively pastimes indulged in; while strains from the mandolin, mingled with the music of the waves and the melodious voices, afforded a restful change for the quieter, more thoughtful moments.

Although but twelve, including the class teacher, Mrs. E. J. Inwood, were able to be there, an unusually good time was reported; and genuine "class spirit," which goes hand in hand with good work, was thoroughly animated.

Woman's Club Meeting

The meeting of the Woman's Club will be held tomorrow at the home of Mrs. B. Utley, 403 East Pine street. The response to roll call will be current events and the subject to be discussed will be "Eugenics." All members are urged to be present.

Missionary Circle to Meet

The Y.M.P.C. Missionary Society of the First Methodist church will meet with Mrs. George C. Post, 205 South Broadway, on Wednesday afternoon at 2 o'clock. All members are urged to be present.

Good Address at Civics Club

A very interesting meeting of the Civics Club was held Saturday afternoon, the principal feature being an address on "Community Property," by Judge W. H. Thomas. In plain language the speaker explained facts of making deeds, wills and other legal documents. He also gave the price of probating and the amounts allowed by law for legal procedure, etc. All this information was very gratefully received by the judge's audience, and he was given a rising vote of thanks.

Several topics of interest to every woman were touched upon by different members, including the unsightly weeds on the Main streets, dirty alleys, back yards, etc.

A survey of the city is being discussed, which may open the eyes of the indifferent citizens.

The County Federation of Clubs will meet at Placentia April 16, and Mrs. M. E. Shaw was elected delegate to represent the Civics Club.

Birthday Dinner

Dr. and Mrs. C. H. Brooks entertained at dinner Saturday evening in honor of the birthday of Dr. H. E. W. Barnes. The table was prettily decorated with wild flowers, a feature being a huge birthday cake.

The guests besides the host and hostess and honored gentleman were Mr. and Mrs. S. H. Bradley of Hollywood and Mr. and Mrs. Erwin Barnes of Anaheim.

Married at El Centro

Ward has been received here of the marriage in El Centro of Miss Belle Mitchell, sister of Superintendent of School R. P. Mitchell, to Dr. John Smith. The bride has been at Hemet for some time for the benefit of her health. The wedding was a surprise to relatives and friends.

Seventh Grade Entertained

The seventh grade of the Intermediate school was entertained right royally Friday evening last at the home of Miss Helen Carnahan on East Walnut street.

Music and various amusing games were played and ice cream and cake were served.

ANNOUNCEMENT

—Dr. J. W. Shaul will be in his Los Angeles office forenoon; Santa Ana office, 2 to 5 p. m., and by appointment.

JEFFERSON P.-T. MEETS

Nominating Committee Names New Officers at Session Held Last Week

A well-attended meeting of the Jefferson School Parent-Teacher Association was held last Thursday afternoon, with Mrs. H. W. Shepherd, the president, in the chair. After a well-rendered piano solo by Howard Blackburn, a sixth-grade boy, the officers gave their reports and the nominating committee announced the names of the following for the incoming officers: President, Mrs. Paul Stevens; first vice-president, Mrs. H. C. Head; second vice-president, Mrs. E. P. Stafford; third vice-president, Mrs. Frank Worden; treasurer, Miss Blanche Collins; secretary, Miss Verne Peterson.

A committee composed of Mesdames E. R. Halesworth, F. R. McMahan and Frank Worden was appointed to make plans for the school fair and exhibit, which will be held May 24. Plans were also discussed for a school entertainment to be given about the same time.

Weiner Bake in Park

A merry party of young people motored to Orange County Park Saturday evening and enjoyed a picnic and weiner bake under the big trees. After the supper had been done full justice, dancing was indulged in at the pavilion, which was gaily lighted with Japanese lanterns.

Those who made up the party were Mrs. Ferguson, Mrs. T. G. Wilson, Misses Anna and Mary Clark, Bertha Kruger, Elizabeth and Nan Wilson, Messrs. Clare Young, Harry Ferguson, Tom Wilson, Fred Wilson, Clarence Nisson, Theo. Reuter, Harry Patton, Jimmie Parker and Bruce Nelson.

A Quilting Bee

The home of Mrs. D. P. Walters was a scene of much pleasure Thursday, April 2, the event being a quilting of Mrs. Walters' friends to quilt and tie comforters and to help Mrs. Walters in getting ready for her change of residence to the northern part of the state, and enjoy one more of her good dinners. Mrs. Walters served a chicken dinner, which was greatly enjoyed. She was assisted by her niece, Mrs. L. R. Stearns, Mrs. H. Rudolph, Mrs. Geo. Jamar, and Mrs. A. J. Day. Mrs. W. M. Stearns superintended the quilting and provided herself quite capable in that line, keeping twenty-one ladies busy the greater part of the day. Mrs. Walters received several very beautiful and useful presents. The decorations were red roses and greenery. The favors were Easter cards.

Those invited, with Mrs. Walters, were: Mesdames L. R. Stearns, H. Wiseman, E. J. Heiser, C. A. St. Arnold, W. M. Stearns, A. J. Day, C. E. Franzen, Joe Fitchner, A. Partridge, Alice Harrod, E. Gray, E. V. Stearns, C. P. Beaton, M. A. Flood, Byron Johnson, Archie Robinson, Marie Hoffman, all of Santa Ana; Mrs. H. Rudolph, Orange; Mrs. W. A. Ralph, Orange; Mrs. Geo. Jamar, San Pedro; Mrs. John Dryer, Tustin.

Personal

Mrs. C. A. Hayward left this morning on the "Sunset Limited" for Phoenix, Arizona.

Mrs. Von Leowien left for El Paso yesterday, traveling via the Southern Pacific.

Mr. and Mrs. J. H. Timms left for Paso Robles yesterday via the Southern Pacific.

Mr. and Mrs. H. H. Wilson, who have been visiting in Santa Ana, left Saturday for Iowa City on the Southern Pacific. They went via San Francisco, Salt Lake City and Denver, and will stop off at these places between trains.

Mrs. H. H. Bonney is enjoying a visit from her friend, Mrs. E. M. Leach, of Minneapolis. She will remain several days, being much cheered with Santa Ana.

Miss Mary Wood went to Los Angeles today to remain several days with friends.

Mrs. Ethel C. Wilson and three children went to Ramona Park this morning to spend their Easter vacation.

Mr. and Mrs. T. P. Kingrey motored to Long Beach this morning to spend the day.

Walter Stafford, who has been spending his vacation here, returned to Claremont this morning.

Frank Hammett of Anaheim spent the week-end with friends and relatives here.

Miss Lillian Small has returned from a six weeks' visit at Berkeley, where she had a delightful time, but is glad to be back to the Southland. Miss Small is now with the Misses Wilson at 951 Sycamore street.

Mrs. E. G. Barkow of Long Beach spent Sunday with her son, C. G. Barkow, and family of 1506 West Fourth street.

Mrs. O. L. Dolton of Los Angeles, visited here Saturday with her daughter, Mrs. Albert Fields, and her son-in-law, Mr. Albert Fields.

Henry Neil left this morning for Little Rock, Ark., via Salt Lake City.

In the pocket of every Clothcraft coat is a guarantee that the suit will wear, hold its shape and give you complete satisfaction.

Of the hundreds of thousands that wear Clothcraft Clothes, not one-quarter of one per cent have occasion to take advantage of this guarantee.

To be able to make that statement is one of the biggest factors in favor of your buying Clothcraft Clothes.

Vandermaast & Son

and Denver. He is travelling via the Salt Lake Route.

E. Martin left this morning for Des Moines, Ia., on a business trip, via the Salt Lake.

Mrs. L. Meyers and daughter left yesterday for their home in Debeque, Colo. They have been visiting friends here this winter. They went by the Salt Lake.

Mr. and Mrs. Horace Fine and family, and Mrs. Louise Vance, motored to Trabuco yesterday. Miss Irene and Anne Robinson returned with them, taking an evening car for Los Angeles, after a weeks vacation from their work at U.S.C.

Mr. and Mrs. C. R. Maxwell of Los Angeles spent Sunday here with Mrs. Ida Bart.

Mr. and Mrs. J. S. McDannald of Oakdale, Cal., arrived here today. They will probably locate in Santa Ana.

Dr. Mabel Vance Tremain went to Arrowhead Hot Springs Saturday to remain a week.

Mrs. J. C. Metzger went to Newport Beach, accompanied by her daughter, Virginia, Christine Watson, Marian Buckley and Margaret Lyon. The party will remain several days.

Miss Lina Yarnell leaves this evening for San Jose.

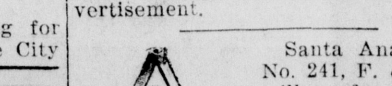

Mrs. K. Cleaver, former well known resident of this city, now of Pomona, is visiting at the home of Mrs. M. M. Crookshank.

Miss Dodson, one of the new deputies in the county recorder's office, arrived Saturday from Los Angeles and is living at the home of Miss Alexander.

Mrs. J. W. Walton and Mrs. Harry Amsbury of Los Angeles were Sunday guests of Dr. and Mrs. H. M. Barnes and Dr. and Mrs. Harry Bishop.

A MEDICINE OF MERIT

A proprietary medicine, like everything else that comes before the public, has to prove its merits. The law of the survival of the fittest applies in this field as in others. The reason for the tremendous success of Lydia E. Pinkham's Vegetable Compound is because it has been fulfilling a real human need for forty years, so that today thousands of American women owe their health and happiness to the marvelous power of this famous medicine, made from roots and herbs—nature's remedy for woman's ills.—Advertisement.

Santa Ana Lodge No. 241, F. & A. M., will confer the first degree Tuesday evening, beginning at 6 o'clock. Visiting brethren invited.

PRINCE L. TOPLE, W. M.

ANNOUNCEMENT
Mrs. L. Valley is now located at 310 W. Second. Phone 5830 evenings for appointment for the American Queen Corset—"Style, Durability and Comfort."

Let the Modern Dry Cleaning Co. clean and press your summer clothing. Best work, prompt service, moderate charges. 519 North Main St. Both phones.

Insurencely yours, Ben E. Turner.

Dr. Pearl B. Magill, Osteopath, rooms 1 and 2, Rowley building, 956W.

BOTH WERE DRAMATIC.

A Story of Frederick the Great and One of His Officers.

Frederick the Great had a strong sense of the dramatic. So had a certain lieutenant colonel in the Prussian army. Accordingly there is plenty of "plot" in the following story:

The officer, who had been discharged at the close of the Seven Years' war, importuned the king to be reinstated. Weary of the incessant solicitations of his troublesome visitor, Frederick at last gave orders that he should never be admitted to his presence.

Some weeks later a most bitter libel against his majesty appeared. Frederick seldom gave himself any concern about such pasquinades, but the present one exasperated him so much that he offered a reward of 50 Friedrichs of gold for the discovery of the author.

The day following the disgraced lieutenant colonel demanded and obtained an audience.

"Sire," he began, on being admitted, "your majesty has just promised 50 Friedrichs for the discovery of the author of a recent publication. I am come to claim the recompense. Behold in me the unfortunate libeler. My life I forfeit freely, but remember your royal pledge and, while you punish me, send to my poor wife and children the reward due to the informer."

The king, although struck with the sad extremity and self sacrifice of the officer, said sternly:

"Go instantly to the fortress of Spandau and there await my judgment."

"I obey," said the culprit; "but the money?"

"Within two hours your wife shall receive it," said the king. "Take this letter and give it to the commandant, but he must not open it until after dinner."

The lieutenant colonel arrived at Spandau and gave himself up as a prisoner. At the prescribed moment the commandant opened the royal mandate. It ran:

To the bearer I give the command of Spandau. I shall be with him in a few days. The present governor is to take the command of Berlin as reward for past services.

FREDERICK.

—Youth's Companion.

DISEASE GERMS STICK.

Hence it is Almost Impossible to Have Really Clean Hands.

That the slovenly habits of ill health of the cooks and waiters who serve us in dining cars, hotels, restaurants and our own homes may be an even greater menace to our health than defective plumbing is the fact brought out by some interesting investigations made by Surgeon Cummins of the British army.

It used to be thought that if our servants' hands—and our own—were washed with reasonable frequency we were safe, but Dr. Cummins shows that even the most scrupulous cleansing will not relieve hands that have been in contact with disease germs from the inability of infecting others. In short, Dr. Cummins declares that so long as we live in this world of dirt and microbes our hands can never be really clean.

To prove his contention Dr. Cummins dipped the tip of his forefinger in a liquid containing millions of typhoid bacilli. The finger was next rinsed in an antiseptic solution, then in very cold water and then in water that was almost boiling. After all this cleansing it was washed in a small quantity of sterile water. This water when analyzed showed no less than 313 colonies of typhoid bacilli.

Not satisfied with this discouraging proof of the futility of clean hands, the doctor proceeded to soak his infected finger tip in pure alcohol. Then he washed it again in sterile water. This time the analysis of the water revealed four colonies of typhoid bacilli.

Another experiment made by Dr. Cummins was to rest a typhoid laden finger tip for just an instant on the surface of a bowl of soup. The soup was then allowed to stand for twenty-four hours. When finally analyzed it revealed nearly 40,000 typhoid bacilli to every cubic inch.—New York American.

Getting Ahead of Father.

"Pardon me, Mr. Brassey, but it is 11:30, and I am obliged to say good night."

"You consider 11:30 a late hour?"

"It isn't that so much, but father is lying awake upstairs trying to think of funny things to say about you—like 'Why didn't you ask him to stay to breakfast or bring in the milk or sweep off the porch?' and I'm not going to give him any such opportunity. Good night."—Cleveland Plain Dealer.

What She Wanted

Library Attendant—A foreign looking woman came in today and asked for "Cottage Cheese." Friend—Ha! Did she think the library was a grocery store? L. A.—No; after some questioning I found out that she wanted "Scottish Chiefs."—Boston Transcript.

Love of Nature.

After a man has lived in town about twenty years, if he has any poetry in his soul, he begins to love the scenery back on the old farm, which he didn't have time to look at when he was working sixteen hours a day.—Toledo Blade.

Musical Note.

An "Old Oaken Bucket" sort of poet concludes a poem. "An' so I love the old piano still." We all like it still. People with old pianos should make a note of this.—New Orleans Picayune.

Cruel Comment.

"I would like to see any man try to kiss me."

"Oh, nobody doubts you would like it."—Baltimore American.

Meeting Postponed

The meeting of the Johnson-Eshleman Progressive Club announced for tonight has been postponed one week and will take place Monday night, April 13, at the city hall, at 7:30 o'clock.

SCHOOL BONDS ARE VOTED BY ANAHEIM

But few of the school districts have reported to County Superintendent of Schools Mitchell the result of the elections held in the school districts of the county, Santa Ana excepted, on Friday.

Anaheim also voted on another matter. The results of the election on issuing bonds aggregating \$15,000 to be used to erect an addition to the Broadway school building and in the general improvement of the grounds, carried by 126 majority. The total vote was 176. For the office of grammar school trustee, Charles Boege was elected by 249 majority and S. D. Winters was unanimously elected for high school trustee.

At Fullerton, after a warm contest all over the district, W. T. Travers of Olympia was re-elected a Fullerton High School trustee to succeed himself, defeating E. Lang of Placentia by a majority of 24 votes.

C. E. Chamberlain was elected trustee of the Loara school district by a majority of 14. Elmer Ball and Archibald Henry were opposing candidates. The total vote cast was 56.

At Buena Park the results of the election for trustees were in favor of Mrs. P. H. Haas to fill the vacancy caused by the resignation of George Wilcox, and Fred Bastady for the long term.

INCUBATOR EGGS TABOO

WASHINGTON, April 6.—The department of Agriculture charges that many poultry raisers are putting on the market infertile eggs that have been tested in incubators from three days to a week. As soon as the breeder finds that the eggs will not hatch he takes them out and sends them to market along with his fresh spring eggs. The department avers that after the eggs have been in the incubator for this period they are "distinctly stale." The department adds:

"The mixing of incubator eggs with the fresh spring eggs leads the egg packers to cut the price they pay the farmer. The farmer who sells inferior eggs to the dealer therefore is very liable to injure his own market for fresh eggs."

AUTO STAGE LINE

—Leaving Santa Ana for Orange, Anaheim and Fullerton every other hour of the day beginning at 7 a.m., to 7 p.m. Last car from Anaheim for Santa Ana midnight. Leaves here northwest corner Fourth and Main.

ANSWERS GIVEN YORBA LINDA CHARGES

Promoters of Tract Say that Land Owners Knew All About Bond Issue

Today answers were filed in two of the big water suits brought by Yorba Linda land owners against the promoters in which the promoters deny the accusations made in the complaints. They declare that their agreements were not violated, and that they have furnished the Yorba Lindas as much water as they are entitled to.

One of the most sensational charges made by the land owners was that the Yorba Linda Water Company issued \$175,000 in bonds and received no consideration for them. The water users were being assessed quite regularly to pay interest on those bonds. The answers filed in the Nixon and Johnson cases today allege that for a year prior to the issuance of the bonds the water users knew that the plan was to issue the bonds, and that that knowledge and their payment of assessments constitutes acquiescence to the bonds and estops them from being heard upon the matter of the bonds, and that a hearing would constitute a damage to the bonds, which are alleged to be held by bona fide purchasers.

Attorneys Haas & Dunnigan and Gibson, Dunn & Crutcher of Los Angeles represent the defendants, among whom are the well known Los Angeles men, Jacob Stern, H. W. Frank, M. N. Newman and Peter Jauns, and the Stern Realty Company and the Yorba Linda Water Company.

For Administration Mrs. M. F. Buckingham has asked for letters on the estate of J. A. Buckingham, who died on March 29. The estate is valued at \$20,000. The will leaves bank stock to a daughter, Tinta B. Small, the home to Mrs. Buckingham and the rest of the property to the two equally. Williams & Rutan are attorneys for the petitioner.

Public Administrator Winbigger is petitioner for letters on the estate of B. E. Planders, who died in Maine, leaving a lot worth \$250 at Huntington Beach. Williams & Rutan are attorneys for the petitioner. The same firm represents Albert Pryor, asking for letters on the estate of Prudencia Aguilar, the estate being a \$100 lot at San Juan Capistrano.

Flora R. Wallihan asks for letters on the estate of Mary E. Reed, the estate being \$773.51 on deposit in a Santa Ana bank. H. C. Head is attorney for the petitioner.

Marriage Annulled Judge Thomas granted annulment of the marriage of Charles F. W. Rensch and Cecile A. James. The marriage occurred in Los Angeles on March 26, 1913. Rensch alleged that the marriage would not have occurred had not the woman deceived him concerning the kind of life she had led. She represented herself to be a widow. In May after the marriage she returned to a man named James in Vancouver. On account of the fraud, annulment was secured. Attorneys Hartwick and Keech & Davis represented Rensch.

Marriage License Charles Crum, 21, and Stella Owen, 19, both of Santa Ana.

Will Is Filed Attorneys Daniel & Daniel today filed for probate the will of William McDonald, who died on March 28. McDonald was gardener for Mrs. Caroline Conn, by whose will he was left \$5000. That legacy is included in the estate, which is valued at \$9000. John Avais is named in McDonald's will as executor. The estate is left to relatives, most of whom live in Inyo county. A niece, Christine Hall,

lives at 412 Ross street. Charges Insanity City Marshal Jernigan has sworn to a complaint charging Joseph Kurr with insanity. Kurr has been making a nuisance of himself hanging around the Irvine ranch house. He says that voices have been directing him to that place.

SENSITIVE PLANTS.

Sunshine at Night Doesn't Fool the Flowers in the Arctic.

The sensitiveness of plants is a never failing interest to all lovers of the woods and fields. Like a human being sensing a fall in the barometer and the coming of a rainstorm, so the clover in the meadow feels and shuts its leaves. A close observer says that a field that was white with blossoms has suddenly become quite changed by the approach of a heavy cloud or the falling of a light shower.

The common chickweed opens its blossom only when the sun is shining and counts on only the bright hours. When it closes its blossoms rain invariably follows. The sea purslane has the same habit. It never opens in cloudy weather and closes when the sun is low, about to sink. The scarlet pimpernel never exposes its flowers to a shower.

One of the naturalists in an arctic expedition noticed that, although the summer sun shone through the nights, the plants made no mistake, but when the sun got round to the west they closed up as if the sun had really set.

The common "four o'clock" almost always closes its flowers at that hour, and so many plants have that instinct that Linnaeus made a floral clock of flowering plants, each of which had its time for closing. The wood sorrel not only drops its leaves and shuts its purple veined flowers when it rains, but does the same if the ground near by is struck with a stick. The family of the oxalis has the same habit.—New York Sun.

EGGS THAT CROAK.

Young Crocodiles Are Heard Before They Are Hatched.

That young unhatched crocodiles utter an audible croaking cry within the eggs in which they are laid is averred by knowledge, and it adds the cry is so loud and distinct that it can be heard when the eggs are buried under one or two yards of sand.

Dr. W. A. Lamborn tested the fact at Lagos on the West African coast. He heard a croaking noise from below a dry path, and, digging in the path to investigate the cause, he discovered thirteen crocodile's eggs at a depth of about eighteen inches. All the young crocodiles hatched out within half an hour of being dug up.

So far back as 1899 Dr. Voeltzkow noticed that unhatched Madagascar crocodiles uttered a cry from the egg at a depth of two yards and that any shock, as of a heavy tread, near the egg caused the baby crocodiles to produce this sound "with the mouth closed, as we produce hiccup sounds." In this way they inform the female crocodile when she visits the nest that they want her aid, whereupon she scrapes the sand away and they emerge.

Apples With Worms.

May it not be that we get a keener pleasure out of eating an imperfect apple than a perfect one? It is neither the best possible apple, which would be perfect, nor the worst possible apple, which would have a kind of negative perfection; it has a worm at the core. But I wonder whether we do not enjoy it more because we have to eat the more carefully to keep from eating him. Besides, he arouses in our mind all sorts of questionings. Why is he there? What kind of worm is he? How did he get in? How would he have got out if we had not ousted him? And—note this—what sort of apple would it have been if he had taken up his residence elsewhere? The perfect apple could have roused no queries which the defective apple does not. The same subtle influences went to make both—the same elements, the same forces, the same chemical processes. But the defective apple has in addition to all these—the worm.—Robert M. Gay in Atlantic.

Cocaine and Crime.

Police authorities have come to regard cocaine as one of the recognized sources of crime. The cocaine fiend seems to have his moral sense destroyed. The morphia devotee is often a man of refined and elevated thought, with delicate perceptions and with a keen sense of honor and obligations, except that he will always lie and deceive to get possession of his needed "dope." In his sober moments the alcohol fiend is often a man of conspicuous honor. The cocaine fiend seems different. It is believed that cocaine directly stimulates to evil passions and evil deeds.—Family Doctor.

Hollow Tooth Ache.

If you have a hollow tooth and it aches cut a piece of clove to fit the cavity and put it in lightly, allowing the upper part to stick out like a cork in a bottle. It will soon swell, keeping the air from the nerve, and the pain will cease until the clove drops out, when it may be replaced by another.—Exchange.

Steady Employment.

"It's lucky I should meet you, Smith. There's a little bill you owe Timkins, the tailor. He's commissioned me to collect it."

"Has he, old man? Well, I'm glad you've got a permanent job at last."—London Tatler.

Impertinent.

"I remember very well the first dollar I ever put in the bank."

"The first? Then you have put in more than one?"—New Orleans Picayune.

Just a Deduction.

"What is his sphere in life?"

"Well, judging from the circle of his acquaintances, I'd say he was a rounder."—California Pelican.

ACCUSE THREE OF GAMBLING

Officers Bring in Nate Smith, Ex-Constable, and Two Others

Three men from Brea spent last night in the county jail. They were brought here by Under Sheriff Law and Deputy Sheriff Davenport after the trio had been arrested on a charge of gambling at the oil center. One of the three is Nate Smith, formerly a constable of Westminster township, which position he resigned three or four years ago after he got into trouble over a blind pig. Recently Smith has been running a bar-ber shop at Brea. The others arrested are E. J. Willford, poolroom keeper, and John Zing, a black-smith's helper.

The evidence against the men was gathered through deputies from the sheriff's office, and by Brea citizens who interested themselves in the matter.

Smith and Willford were also charged with keeping a poolroom open after 11 o'clock at night. Willford pleaded guilty, and paid a fine of \$100. To the gambling charges, the three men entered pleas of not guilty and their cases were set for April 14 and 15. Each gave \$200 bond.

Two Are Taken Deputy Sheriff Rice of Los Alamitos called up the sheriff's office yesterday, and as a result Under Sheriff Law and Constable Heard went to Los Alamitos and brought back M. Segal, charged with disturbing the peace, and E. Rodriguez, charged with carrying a revolver. The two men were picked up asleep beside the road. Segal was fined \$15, and Rodriguez got a dose of six months in jail from Dr. Cox, the usual remedy for gun-packing.

For Inebriacy The officer also brought in W. E. Heying of Los Alamitos on a charge of being habitually intoxicated.

Enters Judgment Judgment for \$301.30 was entered in favor of William Wall and against J. E. Snow on a note given by Snow.

Cruelty Charge C. M. Halderman has sworn to a complaint accusing H. A. Hanning of cruelty to animals. It is alleged that he overworked horses belonging to J. A. Ketscher.

PILES

BI-WEEKLY EXCURSIONS TO ALBERTA, CANADA

TYPE AND TAPE.

These Names Sounded Queer as They Were Heard in London.

Here's one about an American printer whose vicissitudes took him across the ocean last year and landed him in the town of London. The printer is back in Cleveland now and tells the story himself.

This printer bethought him of starting a little paper in the heart of England. So he rented a little building, then went to purchase his type and presses. For the type he stopped at a typefounder's place and explained his needs.

"I want some type," he said.
"We don't sell type here," answered the clerk blankly. "You might get it at the draper's shop over the way."

"How should I get type in a draper's shop?"

"How should you get it anywhere else, may I ask, think you, sir?"

"Well, in my country type is sold at a typefounder's, not at a dry goods store."

"Aow? Did y'wish toype, sir? I thought you wisit type such as they have in type measures and typeworms. You didn't wish type to bind on the edges of frocks, then, but toype to print a paper with? Step this way, thank you, sir."—Cleveland Plain Dealer.

Cause of the Roman Empire.

The reason "why the Roman empire succeeded the republic" was that there was felt to be an urgent need of a strong central power. For many years the republic had been desolated, and the cry of the whole people was for peace—peace at almost any price. Now, peace could be secured only by the ascendancy of a single man, ruling with absolute and irresistible sway. So the people acquiesced in the change. They even hailed it with joy. A few patriots like Brutus and Cato gave up in despair, but most men were pleased with the revolution which made Caesar supreme—not that they were monarchistic at heart, but that after the devastating strife they wanted peace, even though it be at the sacrifice of some of their liberties.—St. Louis Times.

Japanese Fashions.

A Japanese woman of fashion is by no means a drain on her husband's finances. The cost of her wearing apparel is very small indeed when compared to her sister of the occident. She wears \$13.80 worth of clothing under her kimono, the latter costing about \$25. The obi costs another \$25. Numerous tying paraphernalia sum up to \$17.25, and a set of footwear amounts to about \$9. Combs and hairpins ornamented with gems cost \$245, a shawl \$7.50, a diamond neck clasp \$150, a total of a little more than \$900 for a season. This is a very modest outlay when compared to the enormous cost of apparel for the woman of fashion in New York and Paris.—New York Sun.

A Lesson In Spelling.

The lawyer was Scotch, and the judge was English. The case in argument concerned certain water rights, and the lawyer had frequently to use the word "water," which he pronounced very broad.

"Mr. So-and-so," at last interrupted the judge, "do you spell water with two t's in your country?"

"Na, na, my lord," quickly retorted the lawyer, "but we spell manners wi' twa u's!"

Mixed Odors.

"My wife was to give a rose tea—everything scented with roses."
"A delicate conceit."
"Yes; but things went wrong. The people in the next flat took that occasion to have onions and cabbage."—Louisville Courier-Journal.

Man of His Word.

Wife—"You've changed dreadfully. Before we were married you said that you'd lay down your life for me. Hub—Well, I did—my life of single blessedness.—Exchange.

It is vain to put wealth within the reach of him who will not stretch out his hand to take it.—Samuel Johnson

Check Your April Cough Thawing frost and April rains chill you to the very marrow, you catch cold—Head and lungs stuffed—You are feverish—Cough continually and feel miserable—You need Dr. King's New Discovery. It soothes inflamed and irritated throat and lungs, stops cough, your head clears up, fever leaves, and you feel fine. Mr. J. T. Davis, of Stickney Corner, Mo., "Was cured of a dreadful cough after doctor's treatment and all other remedies failed. Relief or money back. Pleasant—Children like it. NEW RECORDER BEGINS DUTIES

Peters Steps Out and Backs Steps in, Dresser Becoming Deputy Clerk

At noon today George E. Peters ended his work as county recorder, that being the hour at which his resignation took effect. Joseph M. Backs, who has served as deputy county clerk for two years, ceased his employment in the clerk's office, and entered upon his duties as county recorder, to which office he was appointed by the supervisors after Peters' resignation was received.

The first document received by the new recorder was a mortgage brought in by Attorney H. C. Head for a client. It was No. 52,863. Documents are recorded commencing with No. 1 at the first of a four-year term, so that since Jan. 1, 1911, Peters received 52,862 documents at his counter.

Al P. Dresser went into County Clerk Williams' office as deputy in Backs' place. Dresser's first official act was the issuance of a marriage license to Ridgeway R. Wilson, 24, and Wilma D. W. Stevenson, 23, both of San Francisco.

Peters will commence his employment as assistant trust officer of the Orange County Savings & Trust Co. on April 15. He was at the recorder's office this afternoon helping the new recorder get the run of things.

Santa Ana Painless Dentists, 102 1/2 East Fourth St. Main 253.

SALUTE TO HONOR GRANT

WASHINGTON, April 6.—Secretary of the Navy Daniels has ordered Rear Admiral Badger to detail a battleship to fire a national salute off the tomb of General Grant at New York city May 30.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She Mixed Sulphur With it to Restore Color, Gloss, Thickness

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Weyth's Sage and Sulphur Hair Remedy," thus avoiding a lot of muss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Weyth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.—Advertisement.

WOMEN FARM SUCCESSFULLY

TOPEKA, Kas., April 6.—Kansas has 1200 women in the active management of farms, and there is not one who has not made a success of agricultural work. These women are scattered over fifty-four counties of the state, a little more than a half of the counties in Kansas.

Most of the women owning farm lands rent the properties and generally they have an agent to look after affairs for them. But there are 1200 women who are active managers of their own farms, and some of them are renters.

1906 COMPANY L BANQUETS TONIGHT

The men of Company L who went to the San Francisco earthquake and fire in 1906 will banquet tonight at Taylor's. Speeches and toasts will be given, reminiscences will be "swapped" and an all round good time will be in order. There will also be a muster and an inspection.

TO CURE A COLD IN ONE DAY

THE EXECUTOR

The Management

An individual who has consented to be named as executor or trustee in a will, may, when the time comes for probating the will, be unable or unwilling to act because of changed personal or business circumstances, thereby delaying the administration of the estate and causing the heirs or beneficiaries the annoyance of appointing another person to act, with the possibility that the substitute may be one who would not have been acceptable to the testator.

This old established company is not subject to influences of this character and would accept the appointment at the proper time.

SANTA ANA, CALIFORNIA, MONDAY EVENING, APRIL 6, 1914.

LOTS TO LEARN IN BATTING LINE

Lost to Los Angeles Because
the Boys Couldn't Touch
Easy Mark

A slow and tame game of baseball was played Saturday between the teams of the Los Angeles and the Santa Ana high schools on the Poly grounds. The game went to Los Angeles by a score of 9 to 3, and that was about the way the game ought to have gone so far as batting was concerned. Santa Ana deserved a better score than that so far as its snoring in the field was concerned.

Both Catcher Brown and Pitcher Warren did accurate throwing in curbing the base-stealers. Brown gets the ball away in a hurry and his eye proves true.

Schultz of Los Angeles did not seem to have much in his arm, but even at that the Santa Ana batsmen could not do much with him. His ball was slow and ought not to have been hard to pick. If Santa Ana

High wins the county championship it won't do it on its batting ability, unless there is a wonderful change in that feature of its game.

About the only dispute that arose was over a put-out of Irvine of Santa Ana. Irvine knocked out a beauty of a two-bagger. A throw to home was attempted, but the ball went a third of a mile high, more or less. Irvine, who had not quite reached second when the ball was thrown away, started to go to third, and stopped to argue with the shortstop as to whether or not he was entitled to go to third base on the over-throw. In the meantime the ball came back and the third baseman ran Irvine down between bases. Umpire West called Irvine out. Coach Ratcliffe protested stoutly that Irvine was entitled to the base, but the Umpire did not see it that way, and out Irvine went. One thing is certain, and that is that if Irvine had gotten on some kind of a base to carry on his argument with the shortstop, the umpire would not have called him out.

The score:
Los Angeles High School

NEWPORT BEACH EPISCOPALIANS WELL GOOD FOR START WORK SOON

Reported that \$150,000 to Be
Spent in Improvements
on Mesa

NEWPORT BEACH, April 6.—The Board of Trustees has granted permission to the Melrose Mesa Association to build a temporary bridge across the Santa Ana river at the west end of the city for the purpose of conveying material across for the new buildings to be erected by the Episcopal community, which has incorporated under the above name. A force of surveyors is at work on the land on which a college and other substantial buildings will be erected. The Episcopalians recently purchased 500 acres of slightly mesa land from the Banning interests, and it is said \$150,000 will be expended in improvements.

Eight firms submitted bids to the Board of Trustees for the street-lighting system recently advertised for by the board, the prices submitted varying from \$17,500 to \$22,000, according to different specifications, for the 138 street lights, posts and underground conduits. The contract will be awarded next Monday.

A force of fifty men is at work on the golf grounds and clubhouse for the Orange County Country Club at Port Orange on the north side of Newport Bay. It is expected that the grounds will be in shape for the summer season.

HUNTINGTON BEACH, April 6.—The trustees of the Methodist Conference held a meeting and prepared preliminary plans for the gathering to be held this summer. The preparation of the ground, which occupies ten acres in the middle of the city, with a large auditorium, was ordered. The trustees also considered plans for advertising the conference, and Huntington Beach, in order to make the coming meeting the largest ever held in Southern California.

Property owners along Ninth street have gotten together for the permanent paving of the street from Ocean avenue to Main street. Seventeenth street, the main crostown thoroughfare, which already has a splendid road surface as far as Palms, is to be oiled as far as Main street. From Main street to the city limits Seventeenth is part of the city boulevard system, and bids are now being taken for its permanent improvement with a surface of concrete and asphalt.

MEMORIAL PARK IS PLAN TO HONOR LATE POET OF THE SIERRAS

OAKLAND, Cal., April 6.—"What ever else we fail to do during the next few months, do not let us neglect to purchase 'The Heights,' the resting place of Joaquin Miller, the Poet of the Sierras."

This was the resolution adopted by Oakland members of the Federation of Women's Clubs, following a similar resolution by the United Improvement Clubs, the federation of men's civic bodies of Oakland. The two federations will see that the money is raised to buy the poet's home, with its slopes and glens and old buildings, and make of it a world-famous sight under the name of the "Joaquin Miller Memorial Park."

The women of Oakland are enthusiastic over the plan and declare that if the old home of the poet is made into a recreation park, not alone the people of Oakland and California, but thousands of tourists with whom his name is a household word, would flock to The Heights for the sake of its natural beauty and the romantic associations with which it is connected.

AUTO RAMS POLE AT ANAHEIM, JARS TWO LOCAL WOMEN

In avoiding a collision with a train at the Santa Fe depot in Anaheim yesterday afternoon about 4 o'clock an automobile driven by Mrs. William Culver of Santa Ana ran into a telegraph pole, severely shaking up its occupants. Mrs. L. A. Schlessinger, who was riding with Mrs. Culver, had her nose broken. Mrs. Schlessinger resides at 1052 West Fourth street, Santa Ana. The machine was considerably damaged.

FULLERTON 1700 BARRELS A DAY

Monte Cristo Brings in an
Excellent Producer in
This County

FULLERTON, April 6.—The Monte Cristo brought in a big well on the N. P. Roberts lease at a depth of 2100 feet. It is producing at the estimated rate of 1700 barrels a day of good gravity oil.

This means that more new wells will be drilled north of Placentia. Three or four wells have been brought in near by during the past two or three weeks.

The Monte Cristo is now drilling well No. 2 and has derricks up for Nos. 3 and 4.

The North American has finished its well on the Delmar Woodward lease at a depth of 3115 feet. Over 200 barrels of good gravity oil was pumped from the hole in a few hours this morning. The new well is only 300 feet from the flowing well of the Calokla company.

Six miles of six-inch pipe and three miles of two-inch were required to tap the wells in the Olinda field to bring the gas to Fullerton at a cost of about \$40,000.

While the natural gas has only just been turned on, the 75 cents per 1000 feet rate has been in effect since March 1, for the company agreed to have the service in operation by that time.

The West Coast Oil Company has brought in a 100-barrel well at a depth of 2800 feet. This company expects to bring in another well soon.

The Olinda Land Company has brought in a 150-barrel well No. 9. This company expects to have No. 10, which is down 3400 feet, on the pump soon.

There is a greater demand for oil leases south of the Olinda ranch than ever before. Many land owners in Yorba Linda and Yorba report that oil men are out there every week trying to secure new oil leases. Not many leases have been signed up in that locality recently, as land owners demand a rather large royalty.

VACATION DAYS HAVE BEGUN FOR BALBOA VISITORS

BALBOA, April 6.—The migration of summer visitors has already started to quite an extent in Balboa, and a great many inquiries are being received each day in regard to accommodations for cottages and apartments for summer occupancy.

Mrs. Vida M. Baer of South Pasadena has bought a six-room cottage from B. T. Chandler. The house stands on the ocean front of East Newport. Horace Fine of Santa Ana will soon start the erection of a seven-room home on his newly-acquired property at this place. Clarence McFadden will build a seven-room bungalow on Central avenue.

EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a Glass of Salts if Your
Back or Bladder
Bothers

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

AMUSEMENTS

"The Perils of Pauline"

This wonderful series of moving pictures will be shown for the first time in this city at Clune's Theater for three days only, beginning today. The great interest shown by the public in other cities indicates this photo play has been approved as an American masterpiece, for there are gripping thrills from the beginning to the end. Along with "The Perils of Pauline" comes an attractive new bill, including a number of interesting single reel pictures, and the high-class vaudeville, heading the bill with Herrmann the Great, world's celebrated comedy magician; Diamond and Beatrice trio, a musical classic; also the Comedy Quartette, singers that are real laugh makers, complete the program.

The second series of "Pauline" will be shown at Clune's theater in two weeks. Read the story and then see the pictures.

The Girl Behind the Counter

"The Girl Behind the Counter," which ran for seventy-two weeks on Broadway, making Manhattan merry for nearly two years, will reach the Grand Opera House April 9, under the auspices of the Gaiety Theater, which is presenting the musical comedy with all the elegance and prodigality that have characterized this company's offerings since "The Candy Shop" was brought from the East to sweeten the West with laughter.

Listed in the cast of principals are Joe Kane, who was the original eccentric German in the New York premier of "The Belle of New York"; Ann Tasker, whose recent transcontinental success at the head of "Madame Sherry" endeared her to lovers of laughter and song; Daphne Polard, who is the greatest though tiniest comedienne on the stage; Maude Beatty, the finest character comedienne in America; Arthur Clough whose tenor voice is as limpid as a brook and as true as a silver ring; Myrtle Dingwall, who comes from a successful engagement at the Trivoli, where she established herself as a favorite, and many others of equal renown in the business of cheering the world, wearing out the blues and murdering melancholy.

Percy Greenbank is responsible for the original book as it was given in London. Edgar Smith revised it for American purposes and the music is by Howard Talbot and J. A. Raynes, the latter responsible for the score of most of the Kolb and Dil successes, one of which, "Lonesome Town," was taken to New York and proved a revelation of Western ability to write breezy and tuneful melodies.

The production is elaborate in every detail of scenery and costumery, and the gay melange of plot, music and dance will appeal from any point of view so long as the auditor has a sense of humor and a love of youth and beauty.

The Photo Drama of Creation

The drama which is showing at the College of Music daily at 3 and 8 p.m., has some very interesting features this week. The great Pyramid from a scientific and religious viewpoint. The story of Joseph; the Tabernacle in the Wilderness; the magnificent temples of Solomon and

Scene from "The Witch of Endor." Daily at 3 and 8 p. m., Until Wednesday Night at College of Music.

NEW ERA DOUBLE-MERGED SHOW TWO IN ONE AT SINGLE PRICE

This conceded monarch of the arena world will be more complete this season in range of standard features, aided by world-picked skillful artists, having a greater number of men and horses and additional animals of zoo and jungle than ever before. They also have enlarged transportation facilities, the largest, impervious canvases, with an expanded seating capacity, able to seat 14,000 patrons, four-fifths at twenty-five cents admission.

The 1914 season has as a special interest, as the Sells-Floto is reinforced by the presence of Buffalo Bill (himself)—Col. Wm. F. Cody, with red and white prairie rangers, who will add picturesqueness and diversity to equestrianism to the limit. This also creates an increase in novelties, in scope and adds to every former adjunct, but with no increase in price, the management trusting to public sense of duty to repay in attendance, in their own interest the vast outlay and expense of this home-sharing enterprise.

The status of the Sells-Floto circus Herod are shown with appropriate descriptions. Beautiful stories of the Bible are given through the eye and ear, in a manner never before attempted. Free to all.—Advertisement.

GOOD OIL SHOWING STRUCK AT 1500 FEET

BUENA PARK, April 6.—The American Petroleum Company, operating on the C. L. McComber ranch, struck a good showing of oil at a depth of 1500 feet. The operators have been greatly encouraged from this development. Should the well strike oil in commercial quantities it will prove quite a large section.

Growth of the Telephone

(From the Los Angeles Financial News)

Figures issued by the Bureau of the Census on the growth of the telephone business in the United States, from 1902 to 1912, show some startling increases. The bureau divides the telephone companies into two classes, those operated by the Bell companies or the American Telephone & Telegraph Company, and those operated by independent companies. The growth of the business, in detail, is shown in the following table:

All Companies—	1912	1907	1902
Miles of wire.....	20,248,326	12,999,364	4,400,451
Number telephones.....	8,729,592	6,118,578	2,371,044
Number messages.....	*13,755,658	*10,400,433	*5,970,554
Bell Companies:			
Miles of wire.....	15,133,186	8,947,266	3,387,924
Number telephones.....	5,087,027	3,032,063	1,317,178
Number messages.....	*9,133,226	*6,491,044	*3,074,530
Independent Companies:			
Miles of wire.....	5,115,140	4,052,098	1,512,527
Number telephones.....	3,642,565	2,986,515	1,053,866
Number messages.....	*4,602,431	*3,999,389	*1,996,024

*Last three figures omitted.

The number of telephones reported by the Bell companies increased 137.8 per cent from 1902 to 1907, and 62.4 per cent from 1907 to 1912. Number reported by other companies increased 183.4 per cent from 1902 to 1907, and 22 per cent from 1907 to 1912. The five years from 1902 to 1907 was the great period of independent telephone development, but since 1907 the Bell companies have been extending their business faster than have the independent companies.

In 1902 the Bell companies controlled 69.1 per cent of the wire and 55.6 per cent of the telephones in use, while in 1912 the Bell companies controlled 74.7 per cent of the wire and 58.3 per cent of the telephones in use. The proportion of the total wire mileage and of the total number of telephones owned by the Bell companies has increased in the ten years from 1902 to 1912, while that owned by the independent companies has decreased. It is estimated that in 1912 there were more than 13,700,000,000 telephone messages over the wires of companies which had an annual income of at least \$5000. It was impossible, of course, to obtain an estimate of the number of messages over private branch wires and party lines which did not require connection at public or central exchanges. Also no estimates could be made of messages over the 1,402,844 telephones of companies which had less than \$5000 income in 1912 and these are not included in the estimated number of messages for the several years.

In connection with this bulletin of the Bureau of the Census the annual report of Theodore N. Vail, president of the Bell Telephone Company, for the year 1913, gives some additional statistics that are unusually interesting. Says Mr. Vail:

On December 31, 1913, there were 8,133,017 telephone stations operated in the United States by the Bell Telephone system, an increase of 676,943 stations for the year. During the year, 1,506,108 miles of wire were strung, bringing the total mileage of wire in use to 16,111,011. Of this mileage, 52 per cent is copper wire and 8,817,815 miles have been placed underground at a cost of \$181,500,000.

Including the traffic over the long distance lines, but not including connecting companies, the daily average of toll connections was about 806,000, and of exchange

connections about 26,431,000, as against corresponding figures in 1912 of 738,000 and 25,572,000, the total daily average for 1913 reaching 27,269,000, or at the rate of about 8,770,500,000 per year.

Estimates of all the associated operating companies and of the American Telephone & Telegraph Company, for all new construction requirements in 1914 have been prepared. It is estimated that about \$56,000,000 will be required for current additions to plant in 1914, of which amount some \$25,000,000 will be provided by the existing and current resources of the companies. During the year \$70,182,000 was applied out of revenue to maintenance and reconstruction purposes; of this, over \$15,000,000 was expended for those purposes. The total provision for maintenance and reconstruction charged against revenue for the last ten years was over \$457,000,000.

The gross revenue in 1913 of the Bell system—not including the connected independent companies—was \$215,600,000, an increase of over \$18,000,000 over last year. Of this, operation consumed \$75,400,000; taxes, \$11,300,000, of 1 1/2 per cent of the outstanding capital obligations; current maintenance, \$32,500,000, and provision for depreciation, \$37,700,000. The surplus available for charges, etc., was \$58,700,000, of which \$16,700,000 was paid in interest and over \$30,000,000 was paid in dividends.

Regarding Government ownership of the telephone systems of the country, Mr. Vail says:

Our opposition to Government operation and ownership is not based on pecuniary, partisan, prejudice or personal reasons. It is because of our interest in the upbuilding of a great public utility and its preservation. We are opposed to Government ownership because we know that no Government-owned telephone system in the world is as cheap and efficient service as the American public is getting from all its telephone companies. We do not believe that our Government would be any exception to the rule.

Mr. Vail shows that there is a deficit in all Government-owned systems, and says that every telephone system in the world adopts the Bell system as a standard, uses the Bell operating methods, and either uses Bell apparatus or copies it. The advantages of one telephone system are set forth as follows:

Government administration is more or less a game of politics, and while with Government operation it may sometimes be possible to have efficiency, it will always be impossible to have economy. The Government-owned European telephone plants, notwithstanding the low price of foreign labor, are carried at a much higher cost than those of the Bell system, and yet every one of them uses the Bell system as a model. The book value of the plant of the Bell system per station is less than 50 per cent that of Belgium, less than 75 per cent that of Austria, about 85 per cent that of Germany, Great Britain and Switzerland, and all of them Government-owned.

Mr. Vail brings out the fact that Americans are better supplied with telephone facilities than any other people, having six times as many telephones per capita as Great Britain and thirteen times as many as France, and that the rates here are as popular as those of any Government-owned plant.

The number of shareholders, 55,983, on December 31, 1913, shows an increase of 5636 during the year. That the distribution is general appears from the following: 49,144 held less than 100 shares each; 6475 held from 100 to 1000 shares each; 331 held from 1000 to 5000 shares each; 17 held 5000 shares or more each (omitting brokers and holders in investment trusts, etc.).

Of the holders of less than 100 shares each, 11,595 held 5 shares or less each; 36,673 held 25 shares or less each. The average number of shares held was 59. A majority of the company's shareholders are women. Less than 6 per cent of the stock was at December 31 in the names of brokers.

NOTICE TO CONTRACTORS

Sealed bids for the improvement of
section 1, Newport Beach and Newport
venue roads will be received by the
Board of Supervisors of the County of
Orange, California, up to 2
o'clock p. m. of the 14th day of April,
14, at their office in Santa Ana, to be
opened in the office of said Board, at
the time specified. The work to be done in accordance
with the profiles, plans and specifications
adopted by the Board of Supervisors and
filed in the office of said Board, and the
office of the County Highway Commis-
sioner.

Copies of plans, profiles and specifica-
tions and also blank forms suitable for
use in bidding on said work may be ob-
tained in the office of said Highway Com-
missioner, and no bid will be considered
which is not in accordance with the form
referred to. Bids must be accompanied by
a certified check in the amount of five (5)
percent of the total of the bid, made
payable to the County of Orange, as a
guarantee that the bidder, if awarded
the contract, will enter into a contract
with the Board of Supervisors, and in
addition thereto, the successful bidder
will be required to file a bond in the sum
of twenty-five (25) percent of the amount
of the contract, with sureties
satisfactory to said Board, as a guaran-
tee of faithful performance of the work
and a further bond in the sum of
fifty (50) percent of the amount of the
contract, with acceptable sureties, to
guarantee the payment of laborers, materi-
als, etc.

The Board of Supervisors reserves the
right to reject any and all bids not
deemed advantageous to the county.
In order of the Board of Supervisors
of the County of Orange, State of Cali-
fornia, made this 31st day of March, 1914.
(Seal)
County Clerk and Ex-officio Clerk of the
Board of Supervisors.

"Faultless" Houdans

This strain has been bred from
rapist records since April, 1890. I
have bred them 21 years for great lay-
ers and 12 years for large size chalk-
white eggs; these fowls are extreme-
ly hardy, have neither comb nor wat-
le to freeze, and are the best of all
winter layers in open front coops.
Faultless strain Houdans have won
every blue ribbon at New York, Bos-
ton, Chicago and Philadelphia. Sold
for past six years; eggs and stock sold
on honor; send 10c for the largest il-
lustrated poultry catalogue ever is-
sued; it tells you how to breed these
fowls, which average 250 eggs a year
apiece; it tells you how to net \$3,000
a year from 100 hens. E. F. MacAVOY,
secretary Houdan Club, Cambridge,

NOTICE TO VOTERS

The Great Register of Orange County
for the year 1914, as well as every other
county in the State of California, is now
being completed. All voters who expect
to participate in the general election to
be held in November, 1914, and in the
primary election to be held in August
1914, must register. Registration close
for the primary election on July 25, 1914
and for the general state election on
October 8, 1914. W. B. WILLIAMS,
County Clerk.

Now Is Your Chance

We are now in position to offer you some of the best land
in the San Joaquin Valley and it is located fine.

With this land goes the water right to one of the best
systems in the state and on this land you can grow alfalfa,
apricots, peaches, grapes, and vegetables of all kinds and
the markets are right at your door. Our prices and terms
are right, and besides this we will take in your house and
lot or any clear property at its cash value.

Let us know what you want and we will be pleased to
show you how near we can come to suiting you.

"SUNKIST" ORANGE JUICE

"The Way Out" For the "Cull" Orange.

BY REGINALD BRUNSMEAD.

At least fifty million pounds of oranges will find their way to the cull pile in California this season.

And over one hundred million pounds of "standard" or low grade oranges will be shipped out of the state.

A total of over one hundred and fifty million pounds of fruit, enough to fill over 2,000,000 packed boxes, more than five thousand carloads.

AND THIS FRUIT FOR WHICH THE GROWER IN THE AGGREGATE, WILL REAP NO BENEFIT, WILL RECEIVE NO CASH RETURNS.

It will cost more than a quarter of a million dollars to harvest and handle this fruit, apart from any cost of packing and shipping the "standards," one hundred thousand dollars for the culls alone.

AND THE GROWER IS MAKING NO ORGANIZED EFFORT TO UTILIZE OR MAKE USE OF THIS IMMENSE QUANTITY OF FRUIT, THE BULK OF WHICH IS SOUND AND GOOD, BUT BLEMISHED OR WEAK AND UNFIT FOR SHIPMENT.

Three million gallons of orange juice could be extracted from the culls, six million gallons from the standards, a grand total of between nine and ten million in all.

And this from what is now virtually a waste product.

Representatives of the International Fruit Products Company of Boston, which has plants in Sicily, Cuba, Florida, and has recently opened an experimental plant in this city, have

stated that they could pay \$10 per ton for cull oranges for manufacture into by-products (they are now paying \$12.50 per ton for cull lemons), GIVING THE CULL ORANGES A TOTAL VALUE OF OVER \$250,000, THE STANDARDS A VALUE OF AT LEAST \$500,000, OVER THREE QUARTERS OF A MILLION DOLLARS IN ALL.

These figures, which are conservative, most certainly provide food for thought. WHAT IS THE GROWER GOING TO DO ABOUT IT?

The University of California, through the experiment station at Berkeley, has recently issued a bulletin, by W. V. Cruess, on "The Utilization of Cull Oranges," dealing with the juice of the orange and the uses to which it can be put. This bulletin covers experiments in the manufacture of unfermented orange juice, orange wine and orange vinegar.

These experiments would seem to point to unfermented orange juice as the product showing the greatest commercial promise. Methods have been worked out whereby it can readily be put up in a most palatable and attractive form; a clear and extremely brilliant liquid, retaining the full orange flavor, and with excellent keeping qualities. Good orange wine, both still and sparkling, was also made in the Berkeley laboratory by W. V. Cruess; but it is doubtful whether this wine would ever find the wide market which should and no doubt would exist for the juice. The

vinegar produced in these experiments is described as fairly good, but not equal to wine or cider vinegar.

An increasingly popular drink at eastern soda fountains is orange juice, made by expressing the juice from the fresh fruit direct into a glass, and retailing at 10c per very small glass. Given a commercial product, put up in bottles or barrels, which retains the full orange flavor and is of standard and reliable quality, and a wide field undoubtedly exists for its exploitation. Few drinks are more palatable, easier of digestion or healthier than orange juice. It is given by doctors to the tiniest of babies, and is one of the first foods allowed the typhoid patient. Its valuable qualities are unquestionable and are well recognized.

Unfermented grape juice is widely advertised and is a popular drink. Apple juice (cider) is largely used and is an old and favorite beverage. Not only is orange juice more easily filtered than these juices, but when once pasteurized it retains its clear and attractive appearance, a thing the grape juice and the apple juice seldom do. And so in palatability, attractiveness and healthfulness of its juice, the orange will yield the palm to neither grape or apple, and in more than one way it excels them both.

The processes employed in the manufacture of unfermented orange juice are quite simple, and would seem to lend themselves readily to commercial production. Briefly summarized they are as follows.

After the juice has been expressed from the orange it is clarified, by being allowed to stand a sufficient length of time to deposit all sediment, giving a beautifully clear liquid. When clarified the juice is filtered, and then is pasteurized by heating to 185 degrees Fahrenheit, after which it is either bottled or barreled for shipment.

The actual expression of the juice from the orange is the only process which at this time presents any difficulties from the commercial standpoint; for all chances of the juices or oils from the skin finding their way into the orange juice must be eliminated. For this purpose machines for removing the skins or rinds are necessary, which would leave the skins in shape for manufacture into other products, and prevent the juices or oils from the skin finding their way into the orange juice. In Italy where from one-third to one-half of the crop is converted into by-products, the peel removed from the lemon by hand; but this method, owing to the higher cost of labor in this country, would here prove too costly. In the clarifying of the juice, two difficulties had to be overcome: The prevention of fermentation where the juice is allowed to stand long enough to thoroughly clear, and the prevention of the bitter taste which develops where the juice is allowed to stand long exposed to the air. In the course of his experiments W. V. Cruess found that where immediately pasteurized it was impossible to clarify the juice; but that the addition of small quantities of sulfurous acid not only prevented fermentation but at the same time eliminated the development of any bitter taste. The sulfurous acid can be added as potassium metabisulfite, and the amount required (only four to six ounces to 100 gallons of juice)

is a negligible quantity, well below the limit allowed by the pure food laws, while much of the sulfurous acid disappears during the further processes of manufacture.

The length of time required to clarify the juice was found to be about fifty hours. After allowing the juice to stand about fifty hours it is clarified and is then drawn off from the residue and filtered.

In order to prevent fermentation, after filtering the juice is pasteurized by heating to 185 degrees F. and is then placed in tightly sealed bottles or barrels. It should keep indefinitely. The bottled juice can be pasteurized after the bottles are filled. It is easy to see whether the Pasteurization has been successful. If after three or four weeks storage no cloudiness develops in the bottles they are ready for shipment. At the laboratory a slight sediment was deposited in the bottles at the end of three months, but this was so slight as hardly to be noticeable. It was found that the flavor of orange juice was less injured by over-heating than either grape juice or apple juice, which is one more point in favor of the orange juice.

In the manufacture of pure unfermented orange juice, there is undoubtedly a big future. The use of pure fruit juices as beverages is rapidly on the increase, and what juice can excel that of the orange?

The production of unfermented orange juice would of necessity go hand in hand with the manufacture of other citrus by-products, all of which could be undertaken by the growers themselves. With the purity and quality guaranteed by the growers' organizations, and with extensive advertising along lines similar to those now employed for the exploitation of the orange, an immense and profitable demand could be created.

We have a SUNKIST orange. Is not a SUNKIST orange juice well within the realms of possibility?

WELL PLEASED WITH CLEVER CARTOONIST

(By Staff Correspondent.)

ORANGE, April 4.—Alton Packard, cartoonist and finished entertainer, pleased a large crowd at Campbell's Opera House last evening. The closing number of the high school lecture course was a distinct success.

Mr. Packard's pictures and running fire of witty remarks that accompanied his drawing held the crowd in high good humor throughout the evening. His exhibition was better if anything than last year, and was received with deep appreciation.

Miss Flora Lehman went to Los Angeles this afternoon to visit until Monday with friends.

Mr. and Mrs. J. N. Cox and family, of North Cambridge street, will spend this evening as guests at the Charles Briggs home in Santa Ana.

Mr. and Mrs. J. W. Morrison left last evening for San Juan Hot Springs to spend several days fishing.

F. E. Hallman, E. W. Bolinger, W. C. Pixley and J. Glenn Marks of Los Angeles, left today for Bear Creek on a trout fishing expedition. They will be absent until Tuesday.

C. M. Dyer of Dyer, Ark., arrived here yesterday to locate after a year's absence in the East.

Mr. and Mrs. A. H. Wilson, who have been visiting the S. L. Buckridge family on North Lemon street, left yesterday for Los Angeles to visit some time before returning to their home in Topeka, Kas.

Harry Dunn of Greeley, Colo., and Mrs. W. B. Winans of Santa Ana were guests at the home of their cousins, Mrs. L. E. Jones and Mrs. L. B. Gitchell on East Palmyra avenue yesterday. In the afternoon, Mr. and Mrs. Geo. C. Wood, with Rev. B. C. Cory and Mr. Dunn took an automobile trip to Placencia and surrounding country. The trip was a very enjoyable one, the party having all been friends in Springfield, Iowa, over twenty years ago.

Mrs. Lena Landreth of Whittier, was in Orange yesterday.

Mrs. R. W. Riddle of East Palmyra avenue has returned from a trip to the Yucaipa Valley.

Henri F. Gardner of Los Angeles arrived here for a short visit yesterday.

Gus Witworth of Los Angeles, came down yesterday to spend a few days reviewing old acquaintances.

Mr. and Mrs. Horace Lucy and family and Miss Wright motored to Pomona today.

Mr. and Mrs. Lester Gleason of

Los Angeles are expected today and will assist with the music at the Methodist church tomorrow.

WILL USE NEW TYPE OF ITALIAN SUBMARINE

LONDON, April 6.—In the new submarines the admiralty is building, and about which a great deal of secrecy is maintained, a departure has been made for the first time in this country from the Holland type. The S-1, now building at Greenock, is of the Laurenti type. For months precautions were taken to secrete it from the view of unauthorized persons, but it is known it is built under license from an Italian company.

Its chief feature is the provision of water-tight compartments, which find no place in the design of previous British submarines, and of a detachable keel weighing twelve tons.

NERVOUS DYSPEPSIA GAS OR INDIGESTION

"Pape's Diapepsin" Settles Sour, Upset Stomachs in Five Minutes

Time it! Pape's Diapepsin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapepsin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.—Advertisement.

IN ONE MINUTE! CLOGGED NOSTRILS OPEN—COLDS AND CATARRH VANISH

Stops Nasty Discharge, Clears Stuffed Head, Heals Inflamed Air Passages and You Breathe Freely.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it. Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of

the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing; Catarrh or a cold, with its running nose, foul mucous dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.—Advertisement.

WASTE BASKETS

"TIZ" GLADDENS SORE, TIRED FEET

"TIZ" makes sore, burning, tired feet fairly dance with delight. Away go the aches and pains, the corns, callouses, blisters and bunions.

"TIZ" draws out the acids and poisons that puff up your feet. No matter how hard you work, how long you dance, how far you walk, or how long you remain on your feet, "TIZ" brings restful foot comfort.

"TIZ" is wonderful for tired, aching, swollen, smarting feet. Your feet just tingle for joy; shoes never hurt or seem tight.

Get a 25 cent box of "TIZ" now from any drugstore or department store. End foot torture forever—wear smaller shoes, keep your feet fresh, sweet and happy.
